Norway's Climate Strategy for 2030: a transformational approach within a European cooperation framework

Contents

1	Introduction	5	5	Reducing non-ETS emissions in Norway	38
2	A changing world	8	5.1	Emission trends	38
2.1	A more proactive climate policy globally and green transformation in Norway	8	5.1.1	Norwegian emissions	38
			5.1.2	New emission projections	40
2.2	Norway's climate targets	14	5.1.3	Uncertainties in emission estimates	42
2.3	Cooperation with the EU on the 2030 emission reduction commitment	17	5.1.4	Reporting required under the Climate Change Act	43
2.4	The Norwegian Government's climate policy	20	5.2	Policy instruments at national level	43
3	Norway's climate strategy for 2030 and the transition to a low-emission society	24	5.2.1	Effective and coordinated use of policy instruments	43
3.1	A strategy to ensure that Norway achieves its targets	24	5.2.2	Pricing emissions is the basis of an effective climate policy	45
3.2	Continuing and strengthening Norway's national efforts	26	5.2.3	Direct regulation as a supplement to economic instruments	48
3.3	Building up the knowledge base ...	28	5.2.4	Need for other types of policy instruments	49
			5.2.5	Policy instruments in different sectors	57
4	EU climate policy and its implications for Norway	30	5.3	Transport	59
4.1	Introduction	30	5.3.1	Climate policy for the transport sector	59
4.2	The EU Emissions Trading System	30	5.3.2	Development of zero- and low-emission technology in the transport sector	61
4.3	The Effort Sharing Regulation	31	5.3.3	Road traffic	66
4.3.1	Introduction	31	5.3.4	Reducing transport needs and switching to more environmentally friendly forms of transport	72
4.3.2	National targets	31	5.3.5	Promoting a shift in freight transport from road to rail and sea	74
4.3.3	New rules and annual targets from 2021 onwards	31	5.3.6	The railways	74
4.3.4	Flexibility rules	32	5.3.7	Non-road mobile machinery	75
4.4	Legislation for the land use, land use change and forestry (LULUCF) sector	33	5.3.8	Domestic shipping and fishing vessels	76
4.4.1	Introduction	33	5.3.9	Domestic aviation	81
4.4.2	The 'no-debit' rule	34	5.3.10	Use of biofuels	82
4.4.3	Use of LULUCF credits under the Effort Sharing Regulation	35	5.4	Agriculture	85
4.5	Flexibility in order to ensure that targets are achieved	35	5.4.1	Agriculture and climate change ...	85
4.5.1	Flexibility available to Norway under the Effort Sharing Regulation	35	5.4.2	Measures and instruments to reduce greenhouse gas emissions from agriculture	87
4.5.2	Norway's eligibility for flexibility mechanisms for the LULUCF sector	37	5.5	Manufacturing industries	91
			5.6	Petroleum	92
			5.7	Energy supplies	95
