

[REPUBLIC ACT NO. 8955, September 02, 2000]

**AN ACT GRANTING THE POLARIS TELECOMMUNICATIONS, INC.
A FRANCHISE TO CONSTRUCT, INSTALL, ESTABLISH, OPERATE
AND MAINTAIN TELECOMMUNICATIONS SYSTEMS THROUGHOUT
THE PHILIPPINES**

Be it enacted by the Senate and House of Representatives of the Philippines in Congress assembled:

SECTION 1. *Nature and Scope of Franchise.* - Subject to the provisions of the Constitution and applicable laws, rules and regulations, there is hereby granted to Polaris Telecommunications, Inc., hereunder referred to as the grantee, its successors or assigns, a franchise to construct, install, establish, operate and maintain for commercial purposes and in the public interest, the business of providing basic and enhanced telecommunications services in and between provinces, cities and municipalities in the Philippines and between the Philippines and other countries and territories, including mobile, cellular and wired or wireless, fiber optics, multi-channel distribution systems, local multipoint distribution system, satellite transmit and receive systems, and other telecommunications systems and their value-added services such as, but not limited to, transmission of voice, data facsimile, control signals, audio and video, information service bureau and all other telecommunications systems technologies as are presently available or will be available through technical advances and innovations in the future; and/ or construct, acquire, lease, manage or operate transmitting and receiving stations and switching stations, both for local and international services, lines, cables or systems, as are convenient or essential to effectively and efficiently carry out the purposes of this franchise.

SEC. 2. *Manner of Operation of Stations or Facilities.* - The stations or facilities of the grantee shall be constructed and operated in a manner as will, at most, result only in the minimum interference on the wavelengths or frequencies of existing stations or other stations which may be established by law, without in any way diminishing its own right to use its selected wavelengths or frequencies and the quality of transmission or reception thereon as should maximize rendition of the grantee's services and/or the availability thereof.

SEC. 3. *Authority of the National Telecommunications Commission.* - The grantee shall secure from the National Telecommunications Commission, hereinafter referred to as the Commission, a Certificate of Public Convenience and Necessity or the appropriate permits and licenses for the location, construction, installation and operation of its telecommunications systems. In issuing the certificate, the Commission shall have the power to impose such conditions relative to the construction, operation, maintenance, or service level of the telecommunications system. The Commission shall have the authority to regulate the construction and operation of its telecommunications systems. The grantee shall not use any

frequency in the radio spectrum without having been authorized by the Commission. Such certificate shall state the areas covered and the date the grantee shall commence the service. The Commission, however, shall not unreasonably withhold or delay the grant of any such authority, permits or licenses.

SEC. 4. Responsibility to the Public. - The grantee shall conform to the ethics of honest enterprise and shall not use its stations for obscene or indecent transmission or for dissemination of deliberately false information or willful misrepresentation, or assist in subversive or treasonable acts.

The grantee shall provide basic or enhanced telephone service in any municipality in the Philippines where it has an approved Certificate of Public Convenience and Necessity for the establishment, operation and maintenance of a local exchange service, without discrimination to any applicant therefor, in the order of the date of their applications, up to the limit of the capacity of its local telephone exchange, and should the demand for the telephone service at any time increase beyond the capacity thereof, the grantee shall increase the same to meet such demand:

Provided, That, in case the total demand to be satisfied by the expansion is less than the smallest viable local exchange available in the market as determined by the Commission, the grantee shall not be obliged to furnish such service, unless the applicant for telephone service defrays the actual expenses for the installation of the telecommunication apparatus necessary for such services and in such case, the Commission may extend the time within which the grantee shall furnish such service.

The grantee shall operate and maintain all its stations, lines, cables, systems and equipment for the transmission and reception of messages signals and pulses in a satisfactory manner at all times, and as far as economical and practicable, modify, improve or change such stations, lines, cables, systems and equipment to keep abreast with the advances in science and technology.

SEC. 5. Rates for Services. - The charges and rates for telecommunications services of the grantee, except the rates and charges on those that may hereafter be declared or considered as nonregulated services, whether flat rates or measured rates or variation thereof, shall be subject to the approval of the Commission or its legal successor. The rates to be charged by the grantee shall be unbundled, separable and distinct among the services offered and shall be determined in such a manner that regulated services do not subsidize the unregulated ones.

SEC. 6. Right of Government. - A special right is hereby reserved to the President of the Philippines, in times of war, rebellion, public peril, calamity, emergency, disaster or disturbance of peace and order, to temporarily take over and operate the stations, transmitters, facilities or equipment of the grantee, to temporarily suspend the operation of any station, transmitter, facility or equipment in the interest of public safety, security and public welfare, or to authorize the temporary use and operation thereof by any agency of the government, upon due compensation to the grantee for the use of said stations, transmitters, facilities or equipment during the period when they shall be so operated.

The radio spectrum is a finite resource that is part of the national patrimony and the use thereof is a privilege conferred upon the grantee by the State and may be
