

**[ REPUBLIC ACT NO. 3277, June 17, 1961 ]**

**AN ACT AUTHORIZING THE APPROPRIATION OF THE SUM OF ONE HUNDRED THOUSAND PESOS FOR THE ESTABLISHMENT OF A CERAMIC PROCESSING PLANT IN THE MUNICIPALITY OF STA. MARIA, PROVINCE OF ISABELA, AND FOR OTHER PURPOSES.**

*Be it enacted by the Senate and House of Representatives of the Philippines in Congress assembled:*

SECTION 1. There is hereby established a Ceramic Processing Plant in a place to be chosen by the Commissioner of the National Institute of Science and Technology in the Municipality of Sta. Maria, Province of Isabela, where sufficient quantities of ceramic materials are found.

SEC. 2. The Ceramic Processing Plant shall have the following functions:

- (a) Study the efficient utilization of ceramic raw materials of the locality;
- (b) Process and compound whatever clay or other ceramic raw materials that may be found in the locality for sale to potters at cost;
- (c) Mix ceramic materials for glaze to be sold at cost to potters;
- (d) Construct a community kiln for use of local potters at nominal cost;
- (e) Teach, guide and demonstrate to local potters the making of different kinds of ceramic products such as structural hollow clay blocks, building bricks, tiles, and household potter wares like flower vases, art wares, containers, dinnerwares, drinking vessels, insulators, etc., and
- (f) Conduct such researches or studies as may be necessary for the efficient and effective functioning of the plant.

SEC. 3. The Ceramic Processing Plant shall be headed by a chief ceramic technologist and shall have such other personnel as may be necessary. They shall be appointed by the Chairman of the National Science Development Board, upon recommendation of the Commissioner of the National Institute of Science and Technology, subject to the approval of said Board.

The chief ceramic technologist shall be responsible for the effective and efficient
