

[SRA SUGAR ORDER NO. 4, November 28, 1989]

REFINING OF "D" WORLD MARKET SUGAR

WHEREAS, in order to place our sugar industry at an advantageous position to supply the world market demand from a ready supply of refined sugar, it will be necessary to create a reserve of said refined sugar;

WHEREAS, such a reserve of refined sugar for the world market will expand our markets and enhance the economic viability of our sugar industry;

NOW, THEREFORE, by virtue of the powers vested in the Sugar Regulatory Administration (SRA), it is hereby ordered that:

SECTION 1. The refining of "D" World Market sugar shall be allowed subject to the following conditions:

1. That quedan-permits covering "D" World Market sugar must be submitted to the SRA for clearance and surcharging for withdrawal from the mill warehouse where the sugar is deposited/stored. The refinery or refineries where sugar will be refined shall also be indicated. Said quedan-permits must be arranged chronologically by week ending (as to production) for each mill district;
2. That listings of aforesaid quedan-permits, for each mill district, indicating serial numbers and corresponding quantities, in piculs, also arranged chronologically and by week ending as in (1) above, be also submitted to the SRA;
3. That the surcharged quedan-permits be surrendered to the mill companies concerned for which the refinery will sign receipt of said sugar;
4. That upon refining said sugar, the refinery shall issue refined sugar quedan-permits in the name of the toller, attested to by the SRA Mill District Regulation Officer (MDRO) who may be assigned thereat;
5. That the refined "D" sugar for export shall be withdrawn only upon clearance for shipment to the world market and/or written authority from this Office;
6. That the refinery prepare and accomplish SRA-SMS Form No. 716, REFINERY RECEIPTS & PRODUCTION OF REFINED "D" SUGAR, format copy attached herewith, for submission to: Production Control and Regulation Office,
