

Radiation Protection (Ionising Radiation) Regulations 2000

Table of Contents

Enacting Formula

Part I PRELIMINARY

1 Citation and commencement

2 Definitions

Part II EXEMPTIONS

3 Exemptions

Part III LICENCES

4 Application for licence

5 Licence fees

6 Purpose of licence

7 Licence conditions

8 Cancellation or suspension of licence

9 Renewal of licence

10 Register of licences

11 Notification of change of address

Part IV GENERAL REQUIREMENTS

12 Age requirement

13 Conditions for engaging in radiation work

Part V CONTROL OF RADIATION EXPOSURE

14 Restriction of exposure to ionising radiations

15 Arrangements for protection of workers

Part VI MEDICAL AND RADIOLOGICAL SUPERVISION

16 Excessive exposure of radiation workers

17 Transfer records

18 Periodic medical examination of radiation workers

**Part VII LABELLING OF IRRADIATING APPARATUS AND
RADIOACTIVE MATERIALS**

19 Labelling of irradiating apparatus

20 Labelling of radioactive materials

21 Labelling of radiation areas

22 Requirements for labels

23 Conditions for using and removal of labels

Part VIII STORAGE OF RADIOACTIVE MATERIALS

24 Conditions for safe storage and keeping of radioactive materials

25 Precautions for safe storage and keeping of radioactive materials

**Part IX ACCOUNTING AND INTERNAL TRANSPORT OF RADIOACTIVE
MATERIALS AND CHECKING OF LEAKAGE OR BREAKAGE OF
SEALED SOURCES**

26 Accounting for radioactive materials

27 Internal transport of sealed sources

28 Internal transport of unsealed sources

29 Checking of leakage or breakage of sealed source

**Part X USE OF SEALED SOURCES AND IRRADIATING APPARATUS IN
INDUSTRIAL RADIOGRAPHY AND SOME OTHER PROCESSES**

30 Application of this Part

31 Requirements for a walled enclosure or cabinet

32 Requirements for field site

33 Warning signals

**Part XI USE OF IRRADIATING APPARATUS FOR MEDICAL, DENTAL
AND VETERINARY DIAGNOSTIC PURPOSES**

34 Requirements for X-ray diagnostic installations

35 Protection of patients and personnel

**Part XII USE OF IRRADIATING APPARATUS FOR MEDICAL
THERAPEUTIC PURPOSES**

36 Requirements for X-ray therapeutic installations

**37 Requirements for therapeutic installations using irradiating
apparatus other than X-ray units**

38 Protection of patients and personnel

Part XIII USE OF SEALED SOURCES FOR MEDICAL PURPOSES

39 Requirements as to sealed sources for medical purposes

Part XIV USE OF SEALED SOURCES AND IRRADIATING APPARATUS IN TEACHING, RESEARCH AND SOME INDUSTRIAL PROCESSES

40 Requirements as to charged particle accelerators

41 Requirements as to X-ray analytical apparatus

42 Requirements as to sealed sources used in gauges, etc.

43 Requirements as to irradiating apparatus used in gauges, monitors, etc.

Part XV USE OF UNSEALED SOURCES IN MEDICAL, INDUSTRIAL AND RESEARCH INSTALLATIONS AND IN EDUCATIONAL INSTITUTIONS

44 General facilities required

45 Handling of unsealed sources

46 Monitoring

47 Control of radioactive contamination

48 Additional requirements for medical use of unsealed sources

Part XVI RADIATION ACCIDENTS

49 Definition of radiation accident

50 Radiation accident in non-medical application

51 Radiation accident in medical application

Part XVII MISCELLANEOUS

52 Responsibility of licensee

53 Appointment of radiation safety officer

54 Prohibition of use of premises and irradiating apparatus or radioactive materials

55 Calibration of monitors and dosimeters

56 Penalty

57 Revocation and savings

FIRST SCHEDULE Maximum Activities and Activity Concentrations of Radionuclides Exempted from the Provisions of the Act

SECOND SCHEDULE

THIRD SCHEDULE

FOURTH SCHEDULE Standard Symbol for Designating Any Ionising Radiation Hazard

FIFTH SCHEDULE

No. S 29

**RADIATION PROTECTION ACT
(CHAPTER 262)**

RADIATION PROTECTION (IONISING RADIATION) REGULATIONS 2000

In exercise of the powers conferred by section 28 of the Radiation Protection Act, the Minister for Health hereby makes the following Regulations:

PART I
