

Factories (Shipbuilding and Ship-repairing) Regulations

Table of Contents

Part I PRELIMINARY

1 Citation

2 Definitions

3 Application

4 Obligations

4A Ship repair manager to approve work

5 Equipment brought into shipyard or on board a ship in a harbour

6 Notification of work carried out on board a ship in a harbour

Part II GENERAL PROVISIONS

7 Disposal of debris

8 Equipment for personal protection

9 Falling hazards

10 Drowning hazards

11 Slipping hazards

12 Tripping and cutting hazards

13 Prevention of accidental closure of hatch

14 Prohibition of smoking

15 Spray painting

16 Metallic fumes

17 Ultra-violet radiation

18 Use of vehicles

19 Illumination of workplaces, etc.

20 Safety supervisor

21 Ship's safety co-ordinator

22 Safety orientation programme

23 Safety training course

23A Safety promotion exercise

24 Electrical safety

25 Safety measures and isolation of hazards

26 Ship repair manager

26A Ship repair manager to attend course

Part III VESSEL SAFETY CO-ORDINATION COMMITTEE

27 Vessel Safety Co-ordination Committee

28 Functions of Committee

29 Composition of Vessel Safety Co-ordination Committee

30 Meetings

31 Duties of Chairman

32 Duties of Secretary

33 Frequency of meetings

34 Authorisation of hazardous work

34A Handing-over procedure for shifts

Part IV PERMIT-TO-WORK SYSTEM

35 Permit-to-work system

36 Procedures for application of permit-to-work

37 Issue, form and display of permit-to-work

38 Completion of work

39 Hot-work permit

40 Procedures for application of hot-work permit and inspection and assessment of hot-work area

41 Person carrying out hot-work to be competent in hot-work

42 Measures for hot-work

43 Marking of hot-work area

44 Fire watchman

45 Duty to report incompatible work

46 Duty to monitor hot-work

47 Validity of hot-work permit

48 Daily review and revocation of hot-work permit

Part V WELDING AND CUTTING OPERATIONS

49 Gas cylinders

50 Gas manifolds

51 Pipe lines and gas hoses

52 Gas equipment to be of good construction

53 Safety devices

54 Inspection of equipment

55 Safety measure during break in gas welding and cutting

56 Faulty or damaged equipment

57 Electrical installations and equipment

58 Arc welding machines

59 Inspection of welding equipment

60 No arc welding in wet conditions

61 Wetness to be dried before electric welding is carried out

62 Adequate ventilation

63 Welding and cutting on containers that held flammable substances

Part VI CONTROL OF HAZARDOUS MATERIAL

64 Approval of hazardous material

65 Material Safety Data Sheet and control of hazardous material

66 Warning signs

67 Labels

Part VII SAFETY INFORMATION AND AUDIT

68 Specification for industrial safety signs

69 Safety signs at suitable locations

70 Means of escape

71 Safety diary

72 Safety handbook

73 Safety management system

74 Safety audit

75 Implementation of auditor's recommendations

Part VIII SCAFFOLDS

76 Construction and materials

77 Supervision by scaffold supervisor

78 Duty of scaffold supervisor

79 Scaffold erectors

80 Inspection of scaffolds

81 Maintenance

82 Design and drawings of professional engineer required

83 Repair of damaged scaffolds

84 Scaffold to be free of all substances which endanger safety

85 Opening only for access
