# **ELECTRICAL WIRING BY-LAWS**

**Chapter 14.04.03**

**2020 Revised Edition**

## ELECTRICAL WIRING BY-LAWS

### Arrangement of Sections

#### Section

1	Short title.....	9
---	------------------	---

#### **PART I - GENERAL PROVISIONS 9**

2	Interpretation.....	9
3	Application.....	15
4	Connections .....	15
5	Modification of requirements .....	16
6	Permission to use other methods and material.....	16
7	Prohibited equipment and methods.....	17
8	Wiring or methods which do not comply .....	18
9	Dispute on technical matters .....	19
10	Permission to install electrical wiring or appliances.....	19
11	Electrical wiring not to be connected without permission.....	20
12	Conditions of issue of permit.....	20
13	Special conditions of permits for temporary installations .....	21
14	Repair work.....	21
15	Protection against contact with live parts .....	22
16	Marking on apparatus and material.....	22
17	Marking of cables .....	23
18	Apparatus and materials submitted for opinion .....	23
19	Submission of unsatisfactory apparatus.....	23

#### **PART III - SAFETY REQUIREMENTS 23**

20	Construction and conditions of use.....	23
21	Positions of fuses, switches, and circuit breakers .....	24
22	Insulation and protection of live conductors.....	24

23	Protection against excess current .....	24
24	Precautions against metal becoming alive.....	24
25	Protection against effects of leakage to earth.....	24
26	Isolation of installation and apparatus.....	24
27	Position of apparatus .....	24
28	Precautions for special conditions.....	25
29	Addition to an installation.....	25
30	Voltage exceeding low voltage .....	25

## **PART IV - DISTRIBUTION AND CONTROL 25**

31	Switchgear.....	25
32	Position of main switchboard.....	26
33	Position of switchboards .....	26
34	Isolation.....	26
35	Access to switchboard wiring .....	26
36	Busbars for neutral and earth continuity conductors.....	27
37	Protection against spread of fire.....	27
38	Construction of switchboards.....	27
39	Fuses, switches, etc. at rear of switchboard .....	28
40	Identification .....	28
41	Common submain .....	28
42	Breaking capacity of protective devices.....	28
43	Position of switches and protective devices.....	28
44	Relative ratings of conductor and protective devices.....	29
45	Service mains and submains .....	29
46	Number of points on, and current rating of, subcircuits.....	30
47	Maximum demand of subcircuits.....	31
48	Control and indicating circuits .....	32
49	Control of points.....	32
50	Connection of subcircuit .....	32

## **PART V - INSTALLATION OF CONDUCTORS AND CABLES 33**

51	Insulation of cables.....	33
52	Maximum current in conductors .....	33
53	Voltage drop in conductors .....	33
54	Minimum size of conductor .....	34
55	Maximum size of solid conductor.....	34
56	Cables unsuitable for alternating current.....	35
57	Enclosure of alternating-current cables.....	35
58	Identification of conductors .....	35
59	Cable terminations.....	37
60	Connections between conductors.....	37
61	Protection against mechanical damage.....	38
62	Protection of cables against damage by extremes of temperature.....	39
63	Protection of cables against fire or explosion .....	39

64	Protection of cables and metal conduit against corrosion.....	39
65	Supports for cables.....	39
66	Segregation of services .....	40
67	Additional requirements for bare conductors.....	41
68	Additional requirements for open wiring.....	42
69	Additional requirements for cables that are metal sheathed or armoured or both .....	43
70	Conduit systems, metallic and non-metallic .....	43
71	Additional requirements for metal conduit systems .....	44
72	Additional requirements for non-metallic conduit systems .....	44
73	Additional requirements for flexible conduit systems .....	44
74	Additional requirements for duct and troughing systems .....	44
75	Additional requirements for paper-insulated cables .....	45
76	Additional requirements for cambric-insulated cables .....	45
77	Wood casing .....	46
78	Additional requirements for neutral-screened cables.....	46
79	Additional requirements for flexible cables and flexible cords .....	47
80	Aerial lines of medium, low, and extra-low voltage.....	47
81	Aerial lines.....	51
82	Temporary installations .....	51
83	Heating wires and cables .....	52
84	Access to wiring.....	52

**PART VI - INSTALLATION OF ACCESSORIES, APPARATUS AND APPLIANCES**

**52**

85	Voltage rating of apparatus.....	52
86	Current rating of apparatus .....	53
87	Selection of apparatus for situation.....	53
88	Damp situations .....	53
89	Mechanical and other damage .....	53
90	Flammable or explosive conditions .....	53
91	Risk of overheating.....	53
92	Ceiling roses .....	54
93	Lampholders .....	54
94	Lighting fittings .....	55
95	Lampholder adaptors .....	55
96	Plugs, plug sockets, and cord extension sockets.....	56
97	Switches and circuit breakers.....	57
98	Fuses .....	57
99	Portable appliances .....	57
100	Semi-portable appliances.....	59
101	Control of appliances .....	59
102	Heating and cooking appliances .....	60
103	Appliances for heating water and other liquids .....	60
104	Control of motors and motor circuits.....	60
