Commission Implementing Regulation (EU) 2016/2288 of 16 December 2016 approving piperonyl butoxide as an existing active substance for use in biocidal products of product-type 18 (Text with EEA relevance)

COMMISSION IMPLEMENTING REGULATION (EU) 2016/2288

of 16 December 2016

approving piperonyl butoxide as an existing active substance for use in biocidal products of product-type 18

(Text with EEA relevance)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) No 528/2012 of the European Parliament and of the Council of 22 May 2012 concerning the making available on the market and use of biocidal products[(1)], and in particular the third subparagraph of Article 89(1) thereof,

Whereas:

(1) Commission Delegated Regulation (EU) No 1062/2014[(2)] establishes a list of existing active substances to be evaluated for their possible approval for use in biocidal products. That list includes piperonyl butoxide.

(2) Piperonyl butoxide has been evaluated for use in products of product-type 18, insecticides, acaricides and products to control other arthropods, as described in Annex V to Regulation (EU) No 528/2012.

(3) Greece was designated as evaluating competent authority and submitted the assessment report together with its recommendations on 29 May 2015.

(4) In accordance with Article 7(2) of Delegated Regulation (EU) No 1062/2014, the opinion of the European Chemicals Agency was formulated on 16 June 2016 by the Biocidal Products Committee, having regard to the conclusions of the evaluating competent authority.

(5) According to that opinion, biocidal products of product-type 18 containing piperonyl butoxide may be expected to satisfy the criteria of Article 19(1)(b) of Regulation (EU) No 528/2012, provided that certain specifications and conditions concerning their use are complied with.

(6) It is therefore appropriate to approve piperonyl butoxide for use in biocidal products of product-type 18, subject to compliance with certain specifications and conditions.

(7) Since piperonyl butoxide meets the criteria for being very persistent (vP) according to Annex XIII to Regulation (EC) No 1907/2006 of the European Parliament and of the Council[(3)], treated articles treated with or incorporating piperonyl butoxide should be labelled appropriately when placed on the market.

(8) A reasonable period should be allowed to elapse before an active substance is approved in order to permit interested parties to take the preparatory measures necessary to meet the new requirements.

(9) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on Biocidal Products,

HAS ADOPTED THIS REGULATION:

Article 1

Piperonyl butoxide is approved as an active substance for use in biocidal products of product-type 18, subject to the specifications and conditions set out in the Annex.

Article 2

This Regulation shall enter into force on the twentieth day following that of its publication in the *Official Journal of the European Union*.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 16 December 2016.

For the Commission

The President

Jean-Claude JUNCKER

ANNEX

Common Name	**IUPAC NameIdentification Numbers**	**Minimum degree of purity of the active substance**[a]	**Date of approval**	**Expiry date of approval**	**Product type**	**Specific conditions**
Piperonyl butoxide	IUPAC Name: 5-{[2-(2-butoxyethoxy)ethoxy]methyl}-6-propyl-1,3-benzodioxole EC No: 200-076-7 CAS No: 51-03-6	94 % w/w	1 July 2018	30 June 2028	18	The authorisations of biocidal products are subject to the following conditions: 1. The product assessment shall pay particular attention to the exposures, the risks and the efficacy linked to any use covered by an application for authorisation, but not addressed in the Union-level risk assessment of the

Changes to legislation: *There are currently no known outstanding effects for the Commission Implementing Regulation (EU) 2016/2288. (See end of Document for details)*

						active substance.
					2.	In view of the risks identified for the uses assessed, the product assessment shall pay particular attention to: a) surface water and sediment compartments for products used indoor for fogging; b) surface water, sediment and soil for products used outdoor for fogging.
					3.	For products that may lead to residues in food or feed,
