ANNEX

Description of the goods	Classification (CN code)	Reasons
(1)	**(2)**	**(3)**
A gardening kit presented in a plastic packing consisting of the following articles:		Classification is determined by general rules 1 and 6 for the interpretation of the Combined Nomenclature (GIR). The items cannot be considered as goods put up in a set for retail sale within the terms of GIR 3 (b) as not all of them are put up together to meet a particular need or to carry out a specific activity. The bag is not used for gardening, but to contain the other articles. It may be also used independently of any gardening activity. The pencil is also not a gardening tool and it has its own practical use elsewhere. If one or more of the articles of a 'set' do not meet the same particular need or are not designed to carry out the same specific activity, each article has to be classified separately (see also the Guidelines on the classification in the Combined Nomenclature of goods put up in sets for retail sale, Part B (II)[b]). The individual articles, as referred to in the description of the goods, are to be classified as follows: (a) Classification is determined by the wording of CN codes 4202, 4202 22 and 4202 22 90. It is to be classified as a handbag with outer surface of textile material
(a) 1 bag, made of woven textile fabric, with an outer surface of textile materials with 1 large internal and 4 smaller external pockets,	4202 22 90	
(b) 1 pair of gloves, made primarily of woven textile fabric with a minor coating of cellular plastics on the palm side,	6216 00 00
