PART 2

Days at Sea

Establishment of management periods for Northern Ireland boats

3.—(1) To establish a management period a person in charge of a Northern Ireland fishing boat shall provide notification of the following to the Department—

(a) a period of a number of consecutive calendar months; and

(b) the regulated gear group or groups that will be used during that period,

and the management period is established on that notification in respect of that period and that gear, except where point 6.2 of the Cod Annex, or point 5.2 of the Sole Annex applies, in which case the management period is established only on receipt of confirmation in writing from the Department

(2) The obligation to provide notification in paragraph (1) constitutes an obligation to serve the required information on the Department by post.

Deeming provisions in respect of certain management periods notified in the first half 2006

4.—(1) Where a person in charge of a Northern Ireland fishing boat has, during the first half 2006, notified to the Department in writing a management period within the meaning of point 9 of the Cod Annex or point 8 of the Sole Annex, which includes any period before this Order comes into force and continues beyond that date—

(a) that notification shall be deemed effective for the purposes of Article 4(1);

(b) a management period shall be deemed to be established in accordance with this Order; and

(c) the requirement in Article 10(2) shall not apply.

(2) Any management period deemed established under paragraph (1) shall be treated as beginning on the date that this Order comes into force and ending on the date notified, and the allocation of days shall be calculated and adjusted accordingly.

Offences in relation to management periods

5.—(1) A person in charge of a Northern Ireland fishing boat is guilty of an offence if, at any time during the 2006 regulated period, the boat is absent from port in the Cod Recovery Zone, Sole Recovery Zone or a combination of both zones, carrying regulated gear unless a management period —

(a) established in accordance with Article 4;

(b) deemed to be established under Article 5; or

(c) established under an equivalent provision,

exists in respect of that boat and that regulated gear at that time.

(2) Paragraph (1) does not apply to—

(a) a person in charge of an Northern Ireland fishing boat in respect of which point 20 of the Cod Annex or point 15 of the Sole Annex applies provided that he complies with the restrictions in those points; or

(b) a person in charge of a Northern Ireland fishing boat which is permitted by point 16 of the Cod Annex or point 21 of the Sole Annex to transit the Cod Recovery Zone or the Sole Recovery Zone, provided that he complies with the obligations in those points.

(3) Where, in respect of the restrictions or obligations referred to in paragraph (2), there is an obligation to supply information, the Department is the person to whom the information is to be supplied.

Allocation of days for fishing in the Cod Recovery Zone and Sole Recovery Zone

6.—(1) In this Article

(a) "allocation of days" means the number of days during which a Northern Ireland fishing boat is permitted to be out of port in the Cod Recovery Zone, Sole Recovery Zone or a combination of both zones, carrying on board notified gear, during a management period established in accordance with this Order;

(b) "applicable row" means the row in the table in which a reference to the notified gear appears in the first column where the second column of the row is empty;

(c) "the table" means Table 1 of the Cod Annex; and

(d) wherever a calculation results in a total containing a fraction, the figure shall be rounded down to the nearest whole number.

(2) The allocation of days for a Northern Ireland fishing boat shall be calculated in accordance with this Article subject to adjustment in accordance with Articles 9, 10 or 12.

(3) If the boat is absent from port but is present in only one of the Cod Recovery Zone areas during a management period, the allocation of days is as follows—

(a) if there is one notified gear group, the figure in the column of the applicable row of the table relating to the relevant area divided by twelve and multiplied by the number of calendar months in the management period;

(b) if there are multiple notified gear groups, the total of the allocations that would apply in respect of each group calculated in accordance with sub-paragraph (a), divided by the number of notified gear groups.

(4) If the boat is present in more than one of the areas in the Cod Recovery Zone but not in the Sole Recovery Zone during the management period, the allocation of days is the highest of the allocations for each area calculated in accordance with paragraph (3).

(5) If the boat is present in both the Cod Recovery Zone and the Sole Recovery Zone or in the Sole Recovery Zone only during the management period, the allocation of days is eighteen multiplied by the number of calendar months in the management period.

Allocation of days – pair trawling

7. Where on any day during a management period any regulated gear is at any time affixed to a fishing boat which is absent from port and present in the Cod Recovery Zone (whether or not it is carried by that fishing boat) at the same time as being affixed to another fishing boat, that day shall be counted as a day in which each boat is present in the zone for the purposes of this Order.

Adjustment of the allocation of days

8.—(1) The Department may adjust the allocation of days that applies in respect of a Northern Ireland fishing boat by adding further days —

(a) in accordance with point 7 or 8 of the Cod Annex or point 6 or 7 of the Sole Annex; or

(b) where days have been allocated to the United Kingdom in accordance with point 10 or 11 of the Cod Annex or point 9 or 10 of the Sole Annex.

(2) Where, in respect of previous management periods established in respect of a Northern Ireland fishing boat, the number of days in any allocation of days calculated in accordance with Article

7 would have resulted in fractions of days had paragraph (1)(d) of that Article not required the rounding down of fractions, the Department may add any whole days amounting from the sum of any such fractions.

(3) Where a Northern Ireland fishing boat is absent from port carrying notified gear in the Cod Recovery Zone or Sole Recovery Zone or a combination of both zones in excess of its allocation of days, the Department shall deduct from any subsequent allocation of days, the number of days during which the boat was so absent from port in excess of the relevant allocation.

(4) Where a person in charge of a Northern Ireland fishing boat contravenes Article 6(1), the Department shall deduct from any subsequent allocation of days the number of days during which the boat was absent from port carrying regulated gear without having established a management period in respect of that period and that gear.

(5) Any adjustment made under this Article takes effect when it is served by post on a person in charge of the fishing boat by the Department.

Fishing in the first half 2006, notification requirement and adjustment of allocation of days

9.—(1) This Article applies where, in the first half 2006, a Northern Ireland fishing boat was—

(a) absent from port and present in the Cod Recovery Zone, Sole Recovery Zone or a combination of both zones; and

(b) carrying regulated gear,

for more than the number of days that would have been allocated in respect of the boat had this Order been in force in respect of that period and had a person in charge notified a four month management period in respect of the first third 2006.

(2) A person in charge of the boat shall notify to the Department, within 28 days of the date that this Order comes into force, the number of days during which the boat was absent from port and present in the Cod Recovery Zone, Sole Recovery Sole or combination of both zones carrying regulated gear during the first half 2006.

(3) The Department shall adjust the allocation of days that applies in respect of the boat to reflect those additional days present in the zones during the first half 2006.

(4) The person in charge of the boat is guilty of an offence if there is a failure to comply with paragraph (2).

(5) The obligation to notify information in paragraph (2) constitutes an obligation to serve the required information on the Department by post.

Offences in relation to allocation of days and other restrictions on presence in the Cod Recovery Zone and Sole Recovery Zone

10.—(1) In this Article "day" means a continuous period of twenty four hours beginning from the moment a fishing boat enters either the Cod Recovery Zone or the Sole Recovery Zone.

(2) Any subsequent re-entry into the Cod Recovery Zone or Sole Recovery Zone during that period shall not trigger a new day.

(3) Where the fishing boat is present in either the Cod Recovery Zone or the Sole Recovery Zone at the end of a day, the next day shall begin at the moment the previous day expires and so on for any contiguous twenty-four hour periods.

(4) Any time spent within the Cod Recovery Zone, Sole Recovery Zone or a combination of both zones during a day is to be counted as a whole day for the purpose of calculating the number of days spent absent from port and present in the Cod Recovery Zone, Sole Recovery Zone or a combination of both zones.
