Commission Implementing Regulation (EU) No 136/2012 of 16 February 2012 concerning the authorisation of sodium bisulphate as feed additive for pets and other non-food producing animals (Text with EEA relevance)

COMMISSION IMPLEMENTING REGULATION (EU) No 136/2012

of 16 February 2012

concerning the authorisation of sodium bisulphate as feed additive for pets and other non-food producing animals

(Text with EEA relevance)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 1831/2003 of the European Parliament and of the Council of 22 September 2003 on additives for use in animal nutrition[(1)], and in particular Article 9(2) thereof,

Whereas:

(1) Regulation (EC) No 1831/2003 provides for the authorisation of additives for use in animal nutrition and for the grounds and procedures for granting such authorisation.

(2) In accordance with Article 7 of Regulation (EC) No 1831/2003, an application was submitted for the authorisation of sodium bisulphate. That application was accompanied by the particulars and documents required under Article 7(3) of Regulation (EC) No 1831/2003.

(3) The application concerns the authorisation of sodium bisulphate as a feed additive for pets and other non-food producing animals, to be classified in the additive categories ‘technological additives’ and ‘sensory additives’.

(4) The European Food Safety Authority (‘the Authority’) concluded in its opinion of 13 October 2011[(2)] that, under the proposed conditions of use, sodium bisulphate does not have an adverse effect on animal health, human health or the environment, and that its use is considered efficacious as acidity regulator in feed for pets and other non food-producing animals, and as flavouring substance in feed for pets. The Authority does not consider that there is a need for specific requirements of post-market monitoring. It also verified the report on the method of analysis of the feed additive in feed submitted by the Reference Laboratory set up by Regulation (EC) No 1831/2003.

(5) The assessment of sodium bisulphate shows that the conditions for authorisation, as provided for in Article 5 of Regulation (EC) No 1831/2003, are satisfied. Accordingly, the use of this preparation should be authorised as specified in the Annexes to this Regulation.

(6) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on the Food Chain and Animal Health,

HAS ADOPTED THIS REGULATION:

Article 1

The preparation specified in Annex I, belonging to the additive category ‘technological additives’ and to the functional group ‘acidity regulator’, is authorised as an additive in animal nutrition, subject to the conditions laid down in that Annex.

Article 2

The preparation specified in Annex II, belonging to the additive category ‘sensory additives’ and to the functional group ‘flavouring compounds’, is authorised as an additive in animal nutrition, subject to the conditions laid down in that Annex.

Article 3

This Regulation shall enter into force on the 20th day following its publication in the *Official Journal of the European Union*.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

***Changes to legislation:** There are currently no known outstanding effects for the Commission Implementing Regulation (EU) No 136/2012. (See end of Document for details)*

[F1 ANNEX I

Textual Amendments

F1 Substituted by Commission Implementing Regulation (EU) 2015/1414 of 20 August 2015 amending Implementing Regulation (EU) No 136/2012 concerning the authorisation of sodium bisulphate as feed additive for pets and for non-food producing animals (Text with EEA relevance).
