COMMISSION REGULATION (EU) No 187/2011

of 25 February 2011

amending Annex I to Regulation (EC) No 669/2009 implementing Regulation (EC) No 882/2004 of the European Parliament and of the Council as regards the increased level of official controls on imports of certain feed and food of non-animal origin

(Text with EEA relevance)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 882/2004 of the European Parliament and of the Council of 29 April 2004 on official controls performed to ensure the verification of compliance with feed and food law, animal health and animal welfare rules[(1)], and in particular Article 15(5) thereof,

Whereas:

(1) Commission Regulation (EC) No 669/2009[(2)] lays down rules concerning the increased level of official controls to be carried out on imports of feed and food of non-animal origin listed in Annex I thereto (‘the list’), at the points of entry into the territories referred to in Annex I to Regulation (EC) No 882/2004.

(2) Article 2 of Regulation (EC) No 669/2009 provides that the list is to be reviewed on a regular basis, and at least quarterly, taking into account at least the sources of information referred to in that Article.

(3) The occurrence and relevance of food incidents notified through the Rapid Alert System for Food and Feed (RASFF), the findings of missions to third countries carried out by the Food and Veterinary Office, as well as the quarterly reports on consignments of feed and food of non-animal origin submitted by Member States to the Commission in accordance with Article 15 of Regulation (EC) No 669/2009 indicate that the list should be amended.

(4) In particular, the list should be amended by deleting the entries for commodities for which those information sources indicate an overall satisfactory degree of compliance with the relevant safety requirements provided for in Union legislation and for which an increased level of official control is therefore no longer justified.

Changes to legislation: *Commission Regulation (EU) No 187/2011 is up to date with all changes known to be in force on or before 27 December 2020. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (5) In addition, certain other commodities for which the information sources indicate a degree of non-compliance with the relevant safety requirements, thereby warranting the introduction of increased level of official controls, should be included in the list.

(6) Similarly, the list should be amended by decreasing the frequency of official controls of the commodities for which the information sources indicate an overall improvement of compliance with the relevant requirements provided for in Union legislation and for which the current level of official control is therefore no longer justified.

(7) The entries in the list for certain imports from China, the Dominican Republic, India and South Africa should therefore be amended accordingly.

(8) In the interests of clarity of Union legislation, it is also necessary to make a small precision in the list regarding the entries for imports of peppers from the Dominican Republic and sweet peppers from Turkey.

(9) The amendment to the list concerning the deletion of the references to commodities, and the reduction in the frequency of controls, should apply as soon as possible, as the original safety concerns have been satisfied. Accordingly, those amendments should apply from the date of entry into force of this Regulation.

(10) Taking into account the number of amendments that need to be made to Annex I to Regulation (EC) No 669/2009, it is appropriate to replace it by the text in the Annex to this Regulation.

(11) Regulation (EC) No 669/2009 should therefore be amended accordingly.

(12) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on the Food Chain and Animal Health,

HAS ADOPTED THIS REGULATION:
