Whereas:

(1) Regulation (EC) No 104/2000 provides that aid may be granted for quantities of certain fresh products withdrawn from the market and either processed to stabilise them and stored or preserved.

(2) The purpose of that aid is to give suitable encouragement to producers' organisations to process or preserve products withdrawn from the market so that their destruction can be avoided.

(3) The aid level should not be such as to disturb the balance of the market for the products in question or distort competition.

(4) The aid level should not exceed the technical and financial costs associated with the operations essential to stabilising and storage recorded in the Union during the fishing year preceding the year in question.

(5) In order not to hinder the operation of the intervention system in the year 2011, this Regulation should apply retroactively from 1 January 2011.
