COMMISSION REGULATION (EC) No 164/2008

of 22 February 2008

amending Regulation (EC) No 1444/2006 as regards the minimum content of the feed additive *Bacillus subtilis* C-3102 (Calsporin)

(Text with EEA relevance)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Regulation (EC) No 1831/2003 of the European Parliament and of the Council of 22 September 2003 on additives for use in animal nutrition[(1)], and in particular Article 13(3) thereof,

Whereas:

(1) The additive *Bacillus subtilis* C-3102 (Calsporin) was authorised under certain conditions in accordance with Regulation (EC) No 1831/2003. Commission Regulation (EC) No 1444/2006[(2)] authorised that additive for ten years for use for chickens for fattening, linking the authorisation to the holder of authorisation for putting that additive into circulation.

(2) Regulation (EC) No 1831/2003 provides for the possibility of modifying the authorisation of an additive further to a request from the holder of the authorisation and an opinion of the European Food Safety Authority ('the Authority').

(3) The holder of the authorisation of the feed additive *Bacillus subtilis* C-3102 (Calsporin) has submitted an application which proposes changing the terms of the authorisation by reducing the minimum content of that additive.

(4) In its opinion adopted on 18 September 2007, the Authority has proposed to reduce the minimum content of active substance from 1×10^9 CFU to 5×10^8 CFU because there is evidence of efficacy at the lowest dose proposed[(3)].

(5) Regulation (EC) No 1444/2006 should therefore be amended accordingly.

(6) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on the Food Chain and Animal Health,
