1990 No. 59

BUILDING REGULATIONS

Building Regulations (Northern Ireland) 1990

Made *21st February 1990*

Coming into Operation *1st June 1990*

ARRANGEMENT OF REGULATIONS

Part A: Interpretation and general

Regulation		Page
A1	Citation and commencement	11
A2	Interpretation	11
A3	Deemed-to-satisfy provisions	16
A4	Transitional provisions	16
A5	Exemptions	17
A6	Application to erection of buildings	19
A7	Application to alterations and extensions	19
A8	Application to works and fittings	20
A9	Application to material change of use	20
A10	Giving of notices and deposit of plans	24
A11	Notice of commencement and completion of certain stages of work	25
A12	Testing of drains and private sewers	27
A13	Sampling of materials	27
A14	Exercise of power of dispensation or relaxation	27
A15	Application for dispensation or relaxation	28
A16	Appeals and prescribed periods	28
A17	Revocations	30

Part B: Materials and workmanship

Regulation		Page
B1	Interpretation	31
B2	Fitness of materials and workmanship	31
B3	*Deemed-to-satisfy provisions regarding the fitness of materials and workmanship*	32
B4	Unsuitable materials	32
B5	Urea formaldehyde foam	34

Part C: Preparation of site and resistance to moisture

C1	Application and interpretation	35
C2	Preparation of site	35
C3	Subsoil drainage	36
C4	Resistance to ground moisture and weather	36
C5	*Deemed-to-satisfy provisions for resistance to ground moisture and weather*	36
C6	Condensation	36
C7	*Deemed-to-satisfy provisions for condensation*	36

Part D: Structure

D1	Interpretation	37
D2	Loading	37
D3	Stability	38
D4	*Deemed-to-satisfy provisions for stability*	38
D5	Disproportionate collapse	39
D6	*Deemed-to-satisfy provisions for disproportionate collapse*	39

Part E: Structural fire precautions

E1	Interpretation	41
E2	Designation of purpose groups	48
E3	Rules for measurement	51
E4	Provision of compartment walls and compartment floors	51
E5	Fire resistance of elements of structure	53

Regulation Page

E6 Fire resistance of floors in conjunction with suspended ceilings 59
E7 External walls 59
E8 Separating walls 62
E9 Compartment walls and compartment floors 64
E10 Protected shafts 67
E11 Fire-resisting doors 69
E12 Penetration of structure by pipes 71
E13 Stairways 73
E14 Provision and construction of cavity barriers and fire stops 74
E15 Restriction of spread of flame over surfaces of walls and ceilings 79
E16 Exceptions permitting the use of certain plastics materials 83
E17 Roofs 84
E18 Small garages 85
E19 Small open carports 87

Part EE: Means of escape in case of fire

EE1 Application 88
EE2 Provision of means of escape 88
EE3 Deemed-to-satisfy provisions for the provision of means of escape 88

Part F: Thermal insulation of dwellings

F1 Application 90
F2 Interpretation 90
F3 Maximum U values of walls, floors and roofs 92
F4 Deemed-to-satisfy provisions regarding thermal insulation 93
F5 Area of window openings 93

Part FF: Conservation of fuel and power in buildings other than dwellings

FF1 Application 95

Regulation Page

FF2 Interpretation 96
FF3 Conservation of fuel and power 98
FF4 Deemed-to-satisfy provisions for the conservation of fuel and power 98

Part G: Sound insulation of dwellings

G1 Application and interpretation 101
G2 Separating walls and separating floors 101
G3 Deemed-to-satisfy provisions for separating walls and separating floors 102

Part H: Stairways, ramps, balustrades and vehicle barriers

H1 Interpretation 103
H2 General requirements for stairways, ramps and stepped ramps 105
H3 Further requirements for stairways 107
H4 Further requirements for ramps 114
H5 Further requirements for stepped ramps 117
H6 Guarding of stairways, ramps, stepped ramps, landings, balconies and other places 117
H7 Vehicle barriers 119
H8 Deemed-to-satisfy provision for vehicle barriers 119

Part J: Refuse disposal

J1 Refuse storage container chambers constructed in buildings comprising more than one dwelling 120
J2 Refuse chutes in buildings comprising more than one dwelling 121
J3 Pipes or shafts ventilating refuse storage container chambers or refuse chutes 121
J4 Hoppers for refuse storage container chambers or refuse chutes 122

Part K: Ventilation

K1 Interpretation 123
K2 Means of ventilation 123
K3 Ventilation openings on to courts 125

Regulation Page

Part L: Chimneys, flue pipes, hearths and fireplace recesses

L1 Application and interpretation 126
L2 General structural requirements 128
L3 Fireplace recesses for Class I appliances 130
L4 Constructional hearths for Class I appliances 130
L5 Walls and partitions adjoining hearths for Class I appliances 132
L6 Chimneys for Class I appliances 132
L7 Flue pipes for Class I appliances 134
L8 Deemed-to-satisfy provisions regarding materials for the construction of flue pipes for Class I appliances 135
L9 Deemed-to-satisfy provisions regarding placing and shielding of flue pipes for Class I appliances 137
L10 Proximity of combustible material—Class I appliances 137
L11 Openings into flues for Class I appliances 137
L12 Flues communicating with more than one room or internal space—Class I appliances 138
L13 Outlets of flues for Class I appliances 138
L14 Chimneys for Class II appliances 139
L15 Flue pipes for Class II appliances 141
L16 Deemed-to-satisfy provisions regarding materials for the construction of flue pipes for Class II appliances *141*
L17 Deemed-to-satisfy provisions regarding placing and shielding of flue pipes for Class II appliances 141
L18 Sizes of flues for Class II appliances 142
L19 Openings into flues for Class II appliances 143
L20 Flues communicating with more than one room or internal space—Class II appliances 144
L21 Outlets of flues for Class II appliances 144
L22 Insulated metal chimneys serving Class I or Class II appliances 145

Part M: Heat-producing appliances and incinerators

M1 Interpretation 147
M2 Prevention of emission of smoke—(Clean Air) 147
M3 High-rating appliances 148
M4 Class I appliances 148
