SCHEDULE 1 Regulations 3 and 4

PART I

Conditions attaching only to a licence to import and keep Arctic foxes

1. Where Arctic foxes are being transported they shall be confined in cages, boxes or other containers constructed from such materials and in such manner as to prevent their escape.

2. Immediately after importation into Northern Ireland Arctic foxes shall be moved to premises in respect of which a licence to keep Arctic foxes is in force.

3. The importer shall, at least 24 hours prior to the date of importation, serve on the Department a written notice containing the following information—
   (*a*) the number of Arctic foxes to be imported;
   (*b*) the date of importation; and
   (*c*) the border post on the land frontier with the Republic of Ireland or the port or airport through which the Arctic foxes are to be imported.

PART II

Conditions attaching both to a licence to import and keep Arctic foxes and a licence to keep Arctic foxes

1. Arctic foxes shall be kept in cages or other containers constructed from such materials and in such manner as to prevent escape. Such cages or other containers shall, except where the Arctic foxes are being transported from place to place, be kept within an enclosure which satisfies the requirements of this Part.

2. Enclosures shall be bounded by a guard fence consisting of wire netting not less than 2.5 mm thick with a mesh not greater than 50 mm. The fence shall be not less than 1.5 m high above ground level. The base of the fence shall be buried in the ground to a depth of at least 300 mm and shall be embedded in a trench of the same depth the bottom of which shall be provided with a foundation at least 300 mm wide on each side and at least 300 mm deep of consolidated hardcore or brick or concrete rubble or of similar solid and durable material or at least 150 mm wide on each side and at least 150 mm deep of concrete. At the top of the fence there shall be a flat sheet of galvanised metal not less than 1.6 mm thick and at least 500 mm deep securely attached to the inside of the wire netting and to any fence posts inside the enclosure so as to form a continuous baffle leaving no gap between the wire and sheet metal.

3. Gates and doors leading through guard fences surrounding enclosures shall close tightly onto a threshold or sill with a base consisting of wire netting buried in the ground and provided with a foundation such as is required in paragraph 2 for the base of guard fencing. Gates and doors shall be made of 50 mm box steel clad with wire netting not less than 2.5 mm thick with a mesh not greater than 50 mm.

4. No objects shall be placed within 1.5 m of the inside of the guard fence of any enclosure in which Arctic foxes are kept.

5. The area immediately outside a guard fence shall be kept clear of undergrowth to a distance of at least 1.5 m from the guard fence.
