Commission Regulation (EC) No 833/2006 of 2 June 2006 fixing the compensatory aid for bananas produced and marketed in the Community in 2005 and the unit value of the advances for 2006

COMMISSION REGULATION (EC) No 833/2006

of 2 June 2006

fixing the compensatory aid for bananas produced and marketed in the Community in 2005 and the unit value of the advances for 2006

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Regulation (EEC) No 404/93 of 13 February 1993 on the common organisation of the market in bananas[(1)], and in particular the first subparagraph of Article 12(6) and Article 14 thereof,

Whereas:

(1) Under Article 12(3) of Regulation (EEC) No 404/93, compensatory aid to Community producers for any loss of income is calculated on the basis of the difference between the flat-rate reference income and the average production income from bananas produced and marketed in the Community during the year in question.

(2) Article 2(2) of Commission Regulation (EEC) No 1858/93 of 9 July 1993 laying down detailed rules for applying Council Regulation (EEC) No 404/93 as regards the aid scheme to compensate for loss of income from marketing in the banana sector[(2)] fixes the flat-rate reference income at EUR 64,03 per 100 kilograms net weight of green bananas ex-packing shed.

(3) In 2005, the average production income, calculated on the basis of the average of the prices for bananas marketed outside the producer regions at the stage of delivery at first port of unloading (goods not unloaded), on the one hand, and the selling prices on local markets for bananas marketed in their producer region, on the other, less the flat-rate amounts laid down in Article 3(2) of Regulation (EEC) No 1858/93, was less than the flat-rate reference income fixed for 2005. The compensatory aid to be granted in respect of 2005 should be fixed accordingly.

(4) Under the second subparagraph of Article 12(6) of Regulation (EEC) No 404/93, supplementary aid is granted in one or more producer regions where the average income from production is significantly lower than the average for the Community.

(5) The annual average production income from the marketing of bananas produced in Martinique, Guadeloupe and Greece has proved to be significantly lower than the Community average during 2005. As a result, supplementary aid should be granted in the producer regions of Martinique, Guadeloupe and Greece. In view of the data for 2005, which point to very difficult production and marketing conditions, supplementary

Changes to legislation: *There are currently no known outstanding effects for the Commission Regulation (EC) No 833/2006. (See end of Document for details)*

aid covering 75 % of the difference between the average income in the Community and the average income recorded on selling products in these regions should be fixed.

(6) The unit amount of the advances and the amount of the relevant security are established, in accordance with Article 4(2) and (3) of Regulation (EEC) No 1858/93, on the basis of the aid fixed for the preceding year.

(7) Given that not all the necessary data were available, it has not hitherto been possible to determine the compensatory aid for 2005. Provision should be made for the balance of the aid for 2005 and of the advances for bananas marketed during January and February 2006 to be paid within two months of the entry into force of this Regulation.

(8) The measures provided for in this Regulation are in accordance with the opinion of the Management Committee for Bananas,

HAS ADOPTED THIS REGULATION:

Article 1

1 The compensatory aid provided for in Article 12 of Regulation (EEC) No 404/93 for fresh bananas falling within CN code ex 0803, excluding plantain bananas, produced and marketed in the Community in 2005 shall be EUR 5,90 per 100 kilograms.

2 The aid fixed in paragraph 1 shall be increased by EUR 11,27 per 100 kilograms for bananas produced in Martinique, by EUR 12,12 per 100 kilograms for bananas produced in Guadeloupe and by EUR 7,76 per 100 kilograms for bananas produced in Greece.

Article 2

The advance for bananas marketed from January to December 2006 shall amount to EUR 4,13 per 100 kilograms. The relevant security shall be EUR 2,06 per 100 kilograms.

Article 3

Notwithstanding Article 10 of Regulation (EEC) No 1858/93, the competent authorities of the Member States shall pay the balance of the compensatory aid to be granted in respect of 2005 and the advance for bananas marketed during January and February 2006 within two months of the entry into force of this Regulation, after the verifications provided for in Article 10 of Regulation (EEC) No 1858/93.

Article 4

This Regulation shall enter into force on the third day following that of its publication in the *Official Journal of the European Union*.

This Regulation shall be binding in its entirety and directly applicable in all Member States.
