COMMISSION REGULATION (EC) No 576/2006

of 7 April 2006

amending Regulation (EC) No 1433/2003 laying down detailed rules for the application of Council Regulation (EC) No 2200/96 as regards operational funds, operational programmes and financial assistance

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Regulation (EC) No 2200/96 of 28 October 1996 on the common organisation of the market in fruit and vegetables[(1)], and in particular Article 48 thereof,

Whereas:

(1) Point 2 of Annex I to Commission Regulation (EC) No 1433/2003[(2)] sets out that specific costs for organic, integrated or experimental production, organic plant protection materials, environmental measures, including costs generated by the environmental management of packaging and quality improvement measures, including certified mycelium and plants and seed of the categories ‘basic seed’ and ‘certified seed’ can be considered as optional eligible measures for operational programmes for a maximum of 10 years per action.

(2) Experience has shown that there has been a high take-up rate of these measures by producer organisations in most Member States. These producer organisations have thus taken full account of environmental and quality concerns in their operational programmes. It is therefore envisaged to eliminate the current limit of ten years per action for these measures.

(3) Regulation (EC) No 1433/2003 should therefore be amended accordingly.

(4) The measures provided for in this Regulation are in accordance with the opinion of the Management Committee for Fresh Fruit and Vegetables,

HAS ADOPTED THIS REGULATION:
