Commission Regulation (EC) No 1343/2005 of 16 August 2005 providing for compensation to producer organisations for tuna delivered to the processing industry between 1 April and 30 June 2004

COMMISSION REGULATION (EC) No 1343/2005

of 16 August 2005

providing for compensation to producer organisations for tuna delivered to the processing industry between 1 April and 30 June 2004

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Regulation (EC) No 104/2000 of 17 December 1999 on the common organisation of the market in fishery and aquaculture products[(1)], and in particular Article 27(6) thereof,

Whereas:

(1) The compensatory allowance provided for in Article 27 of Council Regulation (EC) No 104/2000 may be granted under certain conditions to Community tuna producer organisations for quantities of tuna delivered to the processing industry during the calendar quarter for which prices were recorded, where both the average quarterly selling price recorded on the Community market and the import price plus any countervailing charge were lower than 87 % of the Community producer price for the product concerned.

(2) An examination of the situation on the Community market has shown that between 1 April and 30 June 2004 both the average quarterly selling price and the import price as referred to in Article 27 of Regulation (EC) No 104/2000 for yellowfin tuna (*Thunnus albacares*) weighing more than 10 kg each were lower than 87 % of the Community producer price in force, as laid down in Council Regulation (EC) No 2346/2002[(2)].

(3) Entitlement to the compensatory allowance should be determined on the basis of sales which are covered by invoices bearing a date falling within the quarter concerned and which have been used to calculate the average monthly selling price in accordance with Article 4 of Commission Regulation (EC) No 2183/2001 laying down detailed rules for the application of Council Regulation (EC) No 104/2000 as regards granting the compensatory allowance for tuna intended for the processing industry[(3)].

(4) In accordance with Article 27(2) of Regulation (EC) No 104/2000 the level of the compensation may not in any case exceed either the difference between the triggering threshold and the average selling price of the product in question on the Community market or a flat-rate amount equivalent to 12 % of that threshold.

(5) The quantities on which compensation is payable may under no circumstances, for the quarter concerned, exceed the limits laid down in Article 27(3) of Regulation (EC) No 104/2000.

Changes to legislation: *There are currently no known outstanding effects for the Commission Regulation (EC) No 1343/2005. (See end of Document for details)*

(6) The quantities of yellowfin tuna (*Thunnus albacares*) weighing more than 10 kg each sold and delivered to the processing industry established in the customs territory of the Community were higher during the quarter concerned than the quantities sold and delivered during the same quarter of the three previous fishing years. Since those quantities exceed the limit set in Article 27(3) of Regulation (EC) No 104/2000, the total quantities of those products on which compensation is payable should be limited.

(7) In accordance with the ceilings laid down in Article 27(4) of Regulation (EC) No 104/2000 for the purpose of calculating the allowance to be granted to each producer organisation, the quantities on which the allowance is payable should be allocated among the producer organisations concerned in proportion to the quantities produced by them in the same quarter of the 2001, 2002 and 2003 fishing years.

(8) The measures provided for in this Regulation are in accordance with the opinion of the Management Committee for Fishery Products,

HAS ADOPTED THIS REGULATION:

Article 1

The compensatory allowance provided for in Article 27 of Regulation (EC) No 104/2000 shall be granted for the period from 1 April to 30 June 2004 in respect of yellowfin tuna (*Thunnus albacares*) weighing more than 10 kg each.

The maximum allowance in accordance with the first and second indents of Article 27(2) of Regulation (EC) No 104/2000 shall be fixed at EUR 24 per tonne.

Article 2

1 The total quantities on which the compensatory allowance is payable shall be 26 353,548 tonnes of yellowfin tuna (*Thunnus albacares*) weighing more than 10 kg each.

2 The allocation of the total quantity among the producer organisations concerned shall be as set out in the Annex hereto.

Article 3

This Regulation shall enter into force on the seventh day following its publication in the *Official Journal of the European Union*.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 16 August 2005.
