COMMISSION REGULATION (EC) No 1169/2005

of 19 July 2005

opening a standing invitation to tender for the export of rye held by the German intervention agency

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Regulation (EC) No 1784/2003 of 29 September 2003 on the common organisation of the market in cereals[(1)], and in particular Article 6 thereof,

Whereas:

(1) Commission Regulation (EEC) No 2131/93[(2)] lays down the procedure and conditions for the disposal of cereals held by intervention agencies.

(2) Commission Regulation (EEC) No 3002/92[(3)] lays down common detailed rules for verifying the use and/or destination of products from intervention.

(3) Given the current market situation, a standing invitation to tender should be opened for the export of 500 000 tonnes of rye held by the German intervention agency.

(4) Special rules must be laid down to ensure that the operations are properly carried out and monitored. To that end, securities should be lodged to ensure that the goals of the operation are achieved without excessive cost to the operators. Derogations should accordingly be made to certain rules, in particular those laid down in Regulation (EEC) No 2131/93.

(5) With a view to modernising the management of the system, provision should be made for the electronic transmission of the information required by the Commission.

(6) The measures provided for in this Regulation are in accordance with the opinion of the Management Committee for Cereals,

Article 7

1 The successful tenderer must accept the lot as established if the final result of the sample analyses indicates a quality:

a higher than that specified in the notice of invitation to tender;

b higher than the minimum characteristics laid down for intervention but below the quality described in the notice of invitation to tender, providing that the differences do not exceed the following limits:

— one kilogram per hectolitre as regards specific weight, which must not, however, be less than 68 kg/hl,

3 If the final result of the sample analyses indicates a quality below the minimum characteristics laid down for intervention, the successful tenderer cannot remove the lot in question. The successful tenderer shall be discharged of all obligations relating to the lot in question and the securities shall be released provided the Commission and the intervention agency are immediately notified using the form in Annex I.

Article 8

Should the cases mentioned in Article 7(2)(b) and 7(3) arise, the successful tenderer may ask the intervention agency to supply an alternative lot of rye of the requisite quality, at no extra cost.
