amending Regulation (EC) No 1622/2000 laying down certain detailed rules for implementing Regulation (EC) No 1493/1999 on the common organisation of the market in wine and establishing a Community code of oenological practices and processes

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Regulation (EC) No 1493/1999 of 17 May 1999 on the common organisation of the market in wine[(1)], and in particular Article 46(3) thereof,

Whereas:

(1) Article 44(2) of Commission Regulation (EC) No 1622/2000[(2)] provides for the abandonment, from 1 August 2005, of a number of usual analysis methods described in Commission Regulation (EEC) No 2676/90 of 17 September 1990 determining Community methods for the analysis of wines[(3)].

(2) Following the validation of some of those methods in accordance with internationally recognised criteria, they have now been recognised as reference methods and described as such in Regulation (EEC) No 2676/90.

(3) Furthermore, certain simplified methods described in Regulation (EEC) No 2676/90 allow those components that are most meaningful in terms of wine controls, in particular sulphur dioxide, sugars and some other substances present in wine, to be determined quickly and with sufficient certainty. To ensure that analysis procedures in the Community are uniform, the descriptions of those methods must be allowed to stand in Regulation (EEC) No 2676/90.

(4) Regulation (EC) No 1622/2000 should therefore be amended accordingly.

(5) The measures provided for in this Regulation are in accordance with the opinion of the Management Committee for Wine,
