Commission Regulation (EC) No 2141/2004 of 15 December 2004 laying down, for the 2004/2005 marketing year, the revised production estimate for unginned cotton and the resulting new provisional reduction in the guide price

COMMISSION REGULATION (EC) No 2141/2004

of 15 December 2004

laying down, for the 2004/2005 marketing year, the revised production estimate for unginned cotton and the resulting new provisional reduction in the guide price

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to the Act of Accession of Greece, and in particular Protocol 4 on cotton[(1)],

Having regard to Council Regulation (EC) No 1051/2001 of 22 May 2001 on production aid for cotton[(2)], and in particular the second indent of Article 19(2) thereof,

Whereas:

(1) Article 16(2) of Commission Regulation (EC) No 1591/2001 of 2 August 2001 laying down detailed rules for applying the cotton aid scheme[(3)] provides that the revised production estimate for unginned cotton referred to in the second subparagraph of Article 14(3) of Regulation (EC) No 1051/2001 and the resulting new provisional reduction in the guide price are to be established before 1 December of the marketing year concerned.

(2) Article 19(2) of Regulation (EC) No 1051/2001 provides that the revised production estimate is to be established taking account of the progress of the harvest. That revised estimate should therefore be fixed on the basis of data available for the 2004/2005 marketing year.

(3) The second subparagraph of Article 14(3) of Regulation (EC) No 1051/2001 provides that from 16 December following the start of the marketing year, the amount of the advance is to be determined based on the revised production estimate, plus at least 7,5 %. In view of the most recent figures on quantities placed in supervised storage notified by the Member States in accordance with Article 15(4)(c)(i) of Regulation (EC) No 1591/2001 and of uncertainty about the situation with regard to Greek production, as a safety margin, a percentage increase of 12 % for Greece and 7,5 % for Spain and Portugal should be applied for the 2004/2005 marketing year.

(4) The new provisional reduction in the guide price must be calculated in accordance with Article 7 of Regulation (EC) No 1051/2001, but replacing actual production by the revised production estimate increased as above.

(5) The measures provided for in this Regulation are in accordance with the opinion of the Management Committee for Natural Fibres,

Changes to legislation: *There are currently no known outstanding effects for the Commission Regulation (EC) No 2141/2004. (See end of Document for details)*

HAS ADOPTED THIS REGULATION:

Article 1
