EXPLANATORY NOTE

(This note is not part of the Order but is intended to indicate its general purport.)

This Order amends the Warble Fly Order (Northern Ireland) 1969 by removing the requirement that all bovine animals (apart from those under 12 months) imported from the Republic of Ireland should be accompanied by a valid certificate of treatment for warble infestation.

The restrictions relating to the import of animals showing visible evidence of infestation are, however, still in operation.
