COMMISSION REGULATION (EC) No 531/2003

of 25 March 2003

amending Regulation (EC) No 2375/2002 opening and providing for the administration of a Community tariff quota for common wheat of a quality other than high quality from third countries and derogating from Council Regulation (EC) No 1766/92

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Regulation (EEC) No 1766/92 of 30 June 1992 on the common organisation of the market in cereals ([1]), as last amended by Regulation (EC) No 1666/2000 ([2]), and in particular Article 12(1) thereof,

Having regard to the Council Decision of 19 December 2002 concerning the conclusion of an agreement in the form of an Exchange of Letters between the European Community and the United States of America, with a view to the modification of concessions with respect to cereals provided for in schedule CXL annexed to the General Agreement on Tariffs and Trade (GATT) ([3]), and in particular Article 2 thereof,

Having regard to the Council Decision of 19 December 2002 concerning the conclusion of an agreement in the form of an Exchange of Letters between the European Community and Canada pursuant to Article XXVIII of the General Agreement on Tariffs and Trade (GATT), with a view to the modification of concessions with respect to cereals provided for in EC schedule CXL annexed to the GATT ([4]), and in particular Article 2 thereof,

Whereas:

(1) Commission Regulation (EC) No 2375/2002 ([5]) opens a tariff quota for the import of 2 981 600 tonnes of low and medium quality common wheat from third countries, including 572 000 tonnes for imports originating in the United States of America and 38 000 tonnes for imports originating in Canada. The implementation of the tariff quota gave rise to a number of practical difficulties.

(2) In the first week of bidding for imports under subquota III, which covers all third countries except the United States of America and Canada, there was substantial oversubscription, leading to the exhaustion of the subquotas until the subsequent quarter, due to open on 1 April 2003. It is important to take measures to reduce oversubscription, namely by harmonising the dates of application in all Member States in national holidays, and by reducing the period of validity of import licences.

(3) The provisions relating to certificates of origin, namely the ones concerning administrative cooperation with exporting authorities, have proven to be difficult to apply taking into account the potential number of exporting countries concerned. These provisions have to be amended retroactively, in order to avoid discrimination between operators.

(4) Regulation (EC) No 2375/2002 should therefore be amended accordingly.

(5) The measures provided for in this Regulation are in accordance with the opinion of the Management Committee for Cereals,

HAS ADOPTED THIS REGULATION:
