EXPLANATORY NOTE

(This note is not part of the scheme but is intended to indicate its general purport.)

Section 1 of the Fishing Vessels (Grants) Act 1967 empowers the Ministry of Agriculture to make a scheme providing for grants towards the cost of commercial fishing vessels and engines for such vessels and towards improving commercial sea fishing vessels. This scheme is an exercise of that power.

This scheme provides generally for grants of 40% and 45% of approved expenditure for boats of over 80 ft. and under 80 ft. respectively, and grants are payable on gear sold with the boat. No grants may be made under this scheme on second-hand vessels, engines, parts, equipment or apparatus, and improvement grants do not extend to any work which the Ministry considers to be routine repair, maintenance, or replacement.

Under this scheme applicants should be British subjects resident in Northern Ireland or companies incorporated under the laws of Northern Ireland. Applications under this scheme must be accompanied by appropriate plans and specifications, tenders and forms of contract, and no contract on which a grant is sought may be placed without the prior approval of the Ministry. This scheme requires that a successful applicant for a grant should normally employ only Northern Ireland residents in the boat concerned during the control period.

The grant, or a proportion thereof, made under this scheme, is repayable in certain circumstances including the sale or loss of the vessel, engine or equipment within the control period, or the failure of the grantee to observe any undertaking or conditions subject to which the grant was made.
