EXPLANATORY NOTE

(This note is not part of the Regulations, but is intended to indicate their general purport.)

These Regulations provide that office premises which are in electrical stations shall be excepted from the requirements of section 24 of the Office and Shop Premises Act (Northern Ireland) 1966 (which relates to the provision of first-aid boxes or cupboards and the qualifications in certain cases of the persons in charge of them) and shall be deemed to be part of the electrical stations for the purposes of section 60 of the Factories Act (Northern Ireland) 1965 (which contains similar requirements as to first-aid but differing in detail).

The Regulations also provide that in reckoning the number of employees in such office premises only one in three employees shall be taken into account for the purpose of ascertaining whether the person in charge of a first-aid box or cupboard must be trained in first-aid treatment.

1967. No. 152 **[C]**

INDUSTRIAL TRAINING

Engineering Industry Training Board

ORDER, DATED 28TH JUNE 1967, MADE BY THE MINISTRY OF HEALTH AND SOCIAL SERVICES UNDER THE INDUSTRIAL TRAINING ACT (NORTHERN IRELAND) 1964.

The Ministry of Health and Social Services after consultation with the Engineering Industry Training Board and with organisations and associations of organisations appearing to it to be representative respectively of substantial numbers of employers engaging in the activities hereinafter mentioned and of substantial numbers of persons employed in those activities and in exercise of the powers conferred by section 10 of the Industrial Training Act (Northern Ireland) 1964(a) and of all other powers enabling it in that behalf, hereby makes the following Order:

Citation and interpretation

1.—(1) This order may be cited as the Industrial Training (Engineering Board) (Amendment) Order (Northern Ireland) 1967.

(2) In this Order—

"the Act" means the Industrial Training Act (Northern Ireland) 1964;

"the Board" means the Engineering Industry Training Board;

"the principal Order" means the Industrial Training (Engineering Board) Order (Northern Ireland) 1964(b).

Activities of the Board

2. The activities in relation to which the Board exercises the functions conferred by the Act upon industrial training boards shall, in lieu of the activities

(a) 1964. c. 18 (N.I.). (b) S.R. & O. (N.I.) 1964, No. 146.

specified in Schedule 1 to the principal Order, be the activities specified in the Schedule to this Order, and accordingly in the principal Order the latter Schedule shall be substituted for the former Schedule.

Sealed with the Official Seal of the Ministry of Health and Social Services for Northern Ireland this 28th day of June 1967.

(L.S.) *W. G. H. Quigley,*
Assistant Secretary.

SCHEDULE

The Engineering Industry

1. Subject to the provisions of this Schedule, the activities of the engineering industry are the following activities in so far as they are carried out in Northern Ireland:

(*a*) the quarrying or mining of iron ore or the treatment or preparation of iron ore for smelting;

(*b*) the smelting of iron ore in a blast furnace with or without other metalliferous materials or the production of iron by any other process;

(*c*) the production of steel by any process;

(*d*) when carried out in association with any of the foregoing activities—
- (i) the quarrying of limestone;
- (ii) the production of coke;
- (iii) the casting of iron or steel by any process;
- (iv) the production with or without heat of any iron or steel forgings;
- (v) the annealing or heat treatment of steel;

(*e*) the rolling, with or without heat, of iron or steel products for the purpose of reducing the cross-sectional area thereof;

(*f*) the production from iron or steel of bright bars, hot finished tubes or hot finished pipes;

(*g*) the production of tinplate, terneplate, iron or steel wire, or steel wire ropes;

(*h*) when carried out in association with any of the foregoing activities the production of galvanised or other coated steel sheets;

(*i*) the following operations or processes, that is to say—
- (i) the reduction of virgin aluminium, the production of secondary-based aluminium or of aluminium alloys or the manufacture of aluminium powder or paste and, when carried out by an employer engaged substantially in any of the said operations, the production or processing of any other non-ferrous metal;
- (ii) the smelting or refining of copper or copper alloys;
- (iii) the rolling, drawing, extruding or forging of non-ferrous metal and, when carried out by an employer engaged substantially in any such operation, any refining of metal incidental thereto;

(*j*) the manufacture of—
- (i) articles wholly or mainly from metal or tungsten carbide;
- (ii) articles wholly or mainly from any combination of either metal and plastics material or of metal and tungsten carbide;
- (iii) vehicle bodies;
- (iv) aircraft or hover vehicles;
- (v) articles embodying a lens or prism;
- (vi) primary cells, batteries or electric accumulators;

(vii) electric cables, electric filament lamps, electric discharge lamps or photographic flashbulbs;

(viii) thermionic, cold cathode or photo-cathode valves or tubes, cathode-ray tubes or electric capacitors or resistors;

(ix) printed or micro-electronic circuits, devices using ferrite or quartz crystals for electrical purposes or semi-conductor or piezo-electric devices;

(x) patterns or models constructed for engineering purposes;

(*k*) the installation, testing, inspection or repair of any articles or other products specified in sub-paragraph (*j*);

(*l*) the painting or paint spraying of any articles specified in sub-paragraph (*j*)(i), (ii), (iii), (iv) or (x);

(*m*) the assembly of electric blankets;

(*n*) the following operations or processes, that is to say—

(i) any process of metal preparation including mechanical or chemical cleaning;

(ii) tempering, case-hardening and annealing or other process of metal treatment;

(iii) electro-plating, anodising, polishing, burnishing, vitreous or stove enamelling or other metal finishing process;

(*o*) the machining of carbon articles;

(*p*) the preparation of engineering drawings;

(*q*) the hiring out by an employer of individuals in his employment to persons engaging in any of the foregoing activities, where the said individuals are to be employed in such activities;

(*r*) any activities, being—

(i) related activities incidental or ancillary to principal activities of the engineering industry; or

(ii) activities undertaken in the administration, control or direction of one or more establishments, being establishments engaged wholly or mainly in principal activities of that industry, in related activities incidental or ancillary thereto, or in the administration, control or direction of one or more other establishments engaged in such principal or related activities;

and carried out, in either case, by the employer engaged in those principal activities or, where that employer is a company, by the company or by an associated company of the company;

(*s*) any activities of industry or commerce (other than engineering activities) carried out at or from an establishment mainly engaged—

(i) in engineering activities; or

(ii) in engineering activities and in activities described in the Appendix but to a greater extent in engineering activities than in activities described in the Appendix in relation to any one industry.

2. Notwithstanding anything contained in this Schedule, there shall not be included in the activities of the engineering industry:

(*a*) the activities of any establishment (not being an establishment of a local authority) engaged—

(i) mainly in activities not being engineering activities or activities described in the Appendix; or

(ii) to a less extent in engineering activities than in activities described in the Appendix in relation to any one industry;

(*b*) the activities of any establishment engaged wholly or mainly in related activities, being activities—

(i) incidental or ancillary to the activities of one or more establishments (hereinafter referred to as "the principal establishment") engaged wholly

or mainly in any activities not being principal activities of the engineering industry; and

(ii) carried out by the employer carrying on the principal establishment or, where that employer is a company, by the company or by an associated company of the company;

(*c*) the activities of any establishment engaged wholly or mainly in the activities following or any of them, that is to say—

(i) any operations in a building work or a civil engineering work, or (being operations undertaken in, upon, above or under a building, or the close, curtilage or precincts thereof, or a civil engineering work or the site of a building or such a work) in the provision or continued provision for a building, civil engineering work or site of water, gas, electricity, lighting, heating, ventilation or air-conditioning;

(ii) the cutting and bending of reinforcing steel for the purposes of any operations specified in head (i);

(iii) the erection of steel or other metal framework of buildings or of structures made wholly or mainly of steel or other metal;

(iv) the erection, repair or dismantling of walls, fencing, hoardings or scaffolding;

(v) the erection or dismantling of exhibition stands;

(vi) the manufacture of industrialised building components or sections or of prefabricated buildings or sections of buildings, being components, sections or buildings framed in wood;

(vii) the construction of shop, office or similar fittings on the premises in which they are to be installed, or the prefabrication elsewhere of such fittings by the employer engaged in the installation;

(viii) the repair of contractors' plant or the hiring out of such plant or of scaffolding;

(ix) dealing by a merchant or factor in building, plumbing, decorating, heating, ventilating or air-conditioning materials or equipment, in architectural and builders' ironmongery or in cloakroom fittings, where such products are supplied to persons engaging in any activities specified in head (i);

(x) operations carried out at or from a yard, a dry dock (including the precincts thereof), a harbour or a wet dock in the construction, reconstruction, repair, refitting, painting or finishing of ships, vessels or other floating constructions, or in scaling, scurfing or cleaning the boilers or in scaling the hulls thereof;

(xi) the manufacture, repair or tuning of pianofortes, harpsichords, spinets, clavichords or pipe-organs;

(xii) the assembly, installation, cleaning or repair of venetian blinds;

(xiii) the repair of motor vehicles, except where the establishment is engaged wholly or mainly in the repair of vehicle bodies;

(xiv) selling motor vehicles, or components, replacements, spare parts or accessories for motor vehicles, not being selling by the manufacturer thereof;

(xv) the selling or letting out on hire of transport service equipment by way of business;

(xvi) the production or refining of non-ferrous metal, not being operations or processes specified in paragraph 1(i);

(xvii) the processing of plastics material;

(xviii) the manufacture of paint;

(xix) the installation, testing, inspection or repair of audio or video receiving apparatus or of transmission lines connected with such apparatus, when such operations are carried out in furtherance of an agreement made between a person carrying on the business of selling or hiring out such apparatus or of operating a broadcast relay station and a person to whom such apparatus has been sold or hired or who is a subscriber to the service provided from such a station;
