Regulation 9 SCHEDULE

Regulations 6, 19 and 24 "FIFTH SCHEDULE

DRUGS TO WHICH PART III APPLIES AND CLASSES OF DRUGS FOR THE PURPOSES OF THE REGISTER REQUIRED TO BE KEPT UNDER REGULATION 24.

The drugs to which Part III applies are as follows, that is to say:—

(*a*) methylmorphine (also known as codeine) and its salts;

(*b*) ethylmorphine (also known as dionin) and its salts;

(*c*) pholcodine (also known as morpholinylethylmorphine) and its salts;

(*d*) dihydrocodeine and its salts;

(*e*) acetyldihydrocodeine and its salts;

(*f*) propoxyphene and its salts.".

EXPLANATORY NOTE

(This Note is not part of the Regulations, but is intended to indicate their general purport.)

By Regulations 4, 8 and 9 and the Schedule the drugs acetyldihydrocodeine and propoxyphene cease to be subject to the control imposed by Part II of the Dangerous Drugs Regulations (Northern Ireland), 1960, and are instead made subject to the control imposed by Part III of those Regulations, which is less strict, in particular in that the control of sale and distribution applies only in the case of wholesale dealers, and in that there is no restriction on possession of a drug in a quantity not exceeding one pound. There is no change in the control over the other drugs named in the new Fifth Schedule. Regulations 3, 5 and 7 make drafting changes consequential on the foregoing. By Regulation 6 an agent acting in the transfer of a business and its stock-in-trade will not, merely because the stock includes drugs controlled under the Regulations, require a licence under the Regulations on the ground that he is procuring or offering to procure the drug for another person.
