EXPLANATORY NOTE.

Section 16 of the Factories Act (Northern Ireland), 1938, makes special provision for the carrying out of lubrication or of mounting or shipping of belts in the case of any part of transmission machinery used in any processes specified in Regulations made under that Section. The above Regulations substitute a new Schedule of processes so specified in place of the Schedule to the Factories (Operations at Unfenced Machinery) Regulations (Northern Ireland), 1939 and 1942. The new Schedule differs from the one it replaces in that a new process is added namely the kier process in the manufacture of aluminium from bauxite.
