Commission Implementing Decision (EU) 2020/1150 of 3 August 2020 amending the Annex to Implementing Decision 2014/709/EU concerning animal health control measures relating to African swine fever in certain Member States (notified under document C(2020) 5454) (Text with EEA relevance)

COMMISSION IMPLEMENTING DECISION (EU) 2020/1150

of 3 August 2020

amending the Annex to Implementing Decision 2014/709/EU concerning animal health control measures relating to African swine fever in certain Member States

(notified under document C(2020) 5454)

(Text with EEA relevance)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Council Directive 89/662/EEC of 11 December 1989 concerning veterinary checks in intra-Community trade with a view to the completion of the internal market[(1)], and in particular Article 9(4) thereof,

Having regard to Council Directive 90/425/EEC of 26 June 1990 concerning veterinary checks applicable in intra-Union trade in certain live animals and products with a view to the completion of the internal market[(2)], and in particular Article 10(4) thereof,

Having regard to Council Directive 2002/99/EC of 16 December 2002 laying down the animal health rules governing the production, processing, distribution and introduction of products of animal origin for human consumption[(3)], and in particular Article 4(3) thereof,

Whereas:

(1) Commission Implementing Decision 2014/709/EU[(4)] lays down animal health control measures in relation to African swine fever in certain Member States, where there have been confirmed cases of that disease in domestic or feral pigs (the Member States concerned). The Annex to that Implementing Decision demarcates and lists certain areas of the Member States concerned in Parts I to IV thereof, differentiated by the level of risk based on the epidemiological situation as regards that disease. The Annex to Implementing Decision 2014/709/EU has been amended several times to take account of changes in the epidemiological situation in the Union as regards African swine fever that need to be reflected in that Annex. The Annex to Implementing Decision 2014/709/EU was last amended by Commission Implementing Decision (EU) 2020/1107[(5)], following changes in the epidemiological situation as regards that disease in Latvia, Poland and Slovakia.

(2) Council Directive 2002/60/EC[(6)] lays down the minimum Union measures to be taken for the control of African swine fever. In particular, Article 9 of Directive 2002/60/

EC provides for the establishment of a protection zone and a surveillance zone when African swine fever has been officially confirmed in pigs on a holding, and Articles 10 and 11 of that Directive lay down the measures to be taken in the protection and surveillance zones in order to prevent the spread of that disease. In addition, Article 15 of Directive 2002/60/EC lays down the measures to be taken where African swine fever is confirmed in feral pigs. Recent experience has shown that the measures laid down in Directive 2002/60/EC are effective in controlling the spread of that disease, and in particular, the measures providing for the cleaning and disinfecting of infected holdings and the other measures related to the eradication of that disease in domestic and feral pig populations.

(3) Since the date of adoption of Implementing Decision (EU) 2020/1107, there have been new occurrences of African swine fever in domestic pigs in Lithuania and Poland and in feral pigs in Poland and Slovakia.

(4) In July 2020, five outbreaks of African swine fever in domestic pigs were observed in the powiat biłgorajski, ełcki, garwoliński, zielonogórski and olsztyński in Poland in areas currently listed in Part II of the Annex to Implementing Decision 2014/709/EU or in areas currently listed in Part III of that Annex, located in close proximity to areas currently listed in Part II thereof. These outbreaks of African swine fever in domestic pigs constitute an increased level of risk, which should be reflected in that Annex. Accordingly, these areas of Poland, affected by these recent outbreaks of African swine fever, should now be listed in Part III of the Annex to Implementing Decision 2014/709/EU instead of in Part II thereof; and the area of Poland listed in Part II of that Annex, that are in close proximity to the areas listed in Part III affected by these recent cases of African swine fever, should now be listed in Part III of that Annex instead of in Part II thereof.

(5) In July 2020, three cases of African swine fever in feral pigs were observed in the powiat zambrowski, jarosławski and krośnieński in Poland in areas currently listed in Part I of the Annex to Implementing Decision 2014/709/EU or in areas currently listed in Part II of that Annex, located in close proximity to areas currently listed in Part I thereof. These cases of African swine fever in feral pigs constitute an increased level of risk, which should be reflected in that Annex. Accordingly, these areas of Poland affected by these recent cases of African swine fever should now be listed in Part II of that Annex instead of in Part I thereof; and the area of Poland listed in Part I of that Annex, that are in close proximity to the areas listed in Part II affected by these recent cases of African swine fever, should now be listed in Part II of that Annex instead of in Part I thereof.

(6) In July 2020, two cases of African swine fever in a feral pig were observed in the districts of Rimavská Sobota and Roznava in Slovakia in areas currently listed in Part I of the Annex to Implementing Decision 2014/709/EU. These cases of African swine fever in feral pigs constitute an increased level of risk, which should be reflected in that Annex. Accordingly, these areas of Slovakia currently listed in Part I of the Annex to Implementing Decision 2014/709/EU affected by these recent cases of African swine fever should now be listed in Part II of that Annex instead of in Part I thereof.

(7) In July 2020, one outbreak of African swine fever in domestic pigs was observed in the municipality of Plungė in Lithuania in an area currently listed in Part II of the Annex to Implementing Decision 2014/709/EU. This outbreak of African swine fever in domestic pigs constitutes an increased level of risk, which should be reflected in that Annex. Accordingly, this area of Lithuania, affected by this recent outbreak of African swine fever, should now be listed in Part III of the Annex to Implementing Decision 2014/709/EU instead of in Part II thereof.

(8) Following these recent outbreaks of African swine fever in domestic pigs in Lithuania and Poland, and the recent cases of African swine fever in a feral pigs in Slovakia, and taking into account the current epidemiological situation in the Union, regionalisation in these Member States has been reassessed and updated. In addition, the risk management measures in place have also been reassessed and updated. These changes need to be reflected in the Annex to Implementing Decision 2014/709/EU.

(9) In order to take account of recent developments in the epidemiological situation of African swine fever in the Union, and in order to combat the risks associated with the spread of that disease in a proactive manner, new high-risk areas of a sufficient size should be demarcated for Lithuania, Poland and Slovakia and duly listed in Parts II and III of the Annex to Implementing Decision 2014/709/EU. Given that Parts II and III of the Annex to Implementing Decision 2014/709/EU list the areas where the epidemiological situation is still evolving and very dynamic, when any amendments are made to areas listed in these Parts, particular consideration must always be given to the effect on the surrounding areas, as has been done in this instance. Parts I, II and III of that Annex should therefore be amended accordingly.

(10) Given the urgency of the epidemiological situation in the Union as regards the spread of African swine fever, it is important that the amendments made to the Annex to Implementing Decision 2014/709/EU by this Decision take effect as soon as possible.

(11) The measures provided for in this Decision are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,

HAS ADOPTED THIS DECISION:

Article 1

The Annex to Implementing Decision 2014/709/EU is replaced by the text set out in the Annex to this Decision.

Article 2

This Decision is addressed to the Member States.

Changes to legislation: *There are currently no known outstanding effects for the Commission Implementing Decision (EU) 2020/1150. (See end of Document for details)*

Done at Brussels, 3 August 2020.

For the Commission

Stella KYRIAKIDES

Member of the Commission

***Changes to legislation:** There are currently no known outstanding effects for the Commission Implementing Decision (EU) 2020/1150. (See end of Document for details)*

ANNEX

The Annex to Implementing Decision 2014/709/EU is replaced by the following:

ANNEX PART I1.Belgium
Les zones suivantes en Belgique:
2.Estonia
The following areas in Estonia:
3.Hungary
The following areas in Hungary:
4.Latvia
The following areas in Latvia:
5.Lithuania
The following areas in Lithuania:
6.Poland
The following areas in Poland:
7.Slovakia
The following areas in Slovakia:
8.Greece
The following areas in Greece:

PART II

1. **Belgium**

Les zones suivantes en Belgique:

dans la province de Luxembourg:

— la zone est délimitée, dans le sens des aiguilles d'une montre, par:
  — La Rue de la Station (N85) à Florenville jusque son intersection avec la N894,
  — La N894 jusque son intersection avec la rue Grande,
  — La rue Grande jusque son intersection avec la rue de Neufchâteau,
  — La rue de Neufchâteau jusque son intersection avec Hosseuse,
  — Hosseuse,
  — La Roquignole,
  — Les Chanvières,
  — La Fosse du Loup,
  — Le Sart,
  — La N801 jusque son intersection avec la rue de l'Accord,
  — La rue de l'Accord,
  — La rue du Fet,
  — La N40 jusque son intersection avec la E25-E411,
  — La E25-E411 jusque son intersection avec la N81 au niveau de Weyler,
  — La N81 jusque son intersection avec la N883 au niveau d'Aubange,
  — La N883 jusque son intersection avec la N88 au niveau d'Aubange,
  — La N88 jusque son intersection avec la N811,
  — La N811 jusque son intersection avec la rue Baillet Latour,
  — La rue Baillet Latour jusque son intersection avec la N88,
