Commission Implementing Decision (EU) 2020/883 of 25 June 2020 amending the Annex to Implementing Decision 2014/709/EU concerning animal health control measures relating to African swine fever in certain Member States (notified under document C(2020) 4375) (Text with EEA relevance)

COMMISSION IMPLEMENTING DECISION (EU) 2020/883

of 25 June 2020

amending the Annex to Implementing Decision 2014/709/EU concerning animal health control measures relating to African swine fever in certain Member States

(notified under document C(2020) 4375)

(Text with EEA relevance)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Council Directive 89/662/EEC of 11 December 1989 concerning veterinary checks in intra-Community trade with a view to the completion of the internal market[(1)], and in particular Article 9(4) thereof,

Having regard to Council Directive 90/425/EEC of 26 June 1990 concerning veterinary checks applicable in intra-Union trade in certain live animals and products with a view to the completion of the internal market[(2)], and in particular Article 10(4) thereof,

Having regard to Council Directive 2002/99/EC of 16 December 2002 laying down the animal health rules governing the production, processing, distribution and introduction of products of animal origin for human consumption[(3)], and in particular Article 4(3) thereof,

Whereas:

(1) Commission Implementing Decision 2014/709/EU[(4)] lays down animal health control measures in relation to African swine fever in certain Member States, where there have been confirmed cases of that disease in domestic or feral pigs (the Member States concerned). The Annex to that Implementing Decision demarcates and lists certain areas of the Member States concerned in Parts I to IV thereof, differentiated by the level of risk based on the epidemiological situation as regards that disease. The Annex to Implementing Decision 2014/709/EU has been amended several times to take account of changes in the epidemiological situation in the Union as regards African swine fever that need to be reflected in that Annex. The Annex to Implementing Decision 2014/709/EU was last amended by Commission Implementing Decision (EU) 2020/860[(5)], following changes in the epidemiological situation as regards that disease in Slovakia and Poland.

Changes to legislation: *There are currently no known outstanding effects for the Commission Implementing Decision (EU) 2020/883. (See end of Document for details)*

(2) Since the date of adoption of Implementing Decision (EU) 2020/860, there have been new occurrences of African swine fever in a feral pig in Lithuania and in domestic pigs in Poland.

(3) In June 2020, one case of African swine fever in a feral pig was observed in the county of Telšiai in Lithuania in an area listed in Part I of the Annex to Implementing Decision 2014/709/EU. This case of African swine fever in a feral pig constitutes an increased level of risk which should be reflected in that Annex. Accordingly, this area of Lithuania currently listed in Part I of the Annex to Implementing Decision 2014/709/EU, affected by this recent case of African swine fever, should now be listed in Part II of that Annex instead of in Part I thereof.

(4) In June 2020, one outbreak of African swine fever in domestic pigs was observed in the district of polkowicki in Poland in an area currently listed in Part II of the Annex to Implementing Decision 2014/709/EU. This outbreak of African swine fever in domestic pigs constitutes an increased level of risk, which should be reflected in that Annex. Accordingly, this area of Poland, affected by this recent outbreak of African swine fever, should now be listed in Part III of the Annex to Implementing Decision 2014/709/EU instead of in Part II thereof.

(5) Following those recent occurrences of African swine fever in feral and domestic pigs in Lithuania and Poland, and taking into account the current epidemiological situation in the Union, regionalisation in these two Member States has been reassessed and updated. In addition, the risk management measures in place have also been reassessed and updated. These changes need to be reflected in the Annex to Implementing Decision 2014/709/EU.

(6) In order to take account of recent developments in the epidemiological evolution of African swine fever in the Union, and in order to combat the risks associated with the spread of that disease in a proactive manner, new high-risk areas of a sufficient size should be demarcated for Lithuania and Poland and duly listed in Parts II and III of the Annex to Implementing Decision 2014/709/EU. Parts I, II and III of that Annex should therefore be amended accordingly.

(7) Given the urgency of the epidemiological situation in the Union as regards the spread of African swine fever, it is important that the amendments made to the Annex to Implementing Decision 2014/709/EU by this Decision take effect as soon as possible.

(8) The measures provided for in this Decision are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,

HAS ADOPTED THIS DECISION:

Article 1

The Annex to Implementing Decision 2014/709/EU is replaced by the text set out in the Annex to this Decision.

Article 2

This Decision is addressed to the Member States.

***Changes to legislation:** There are currently no known outstanding effects for the Commission Implementing Decision (EU) 2020/883. (See end of Document for details)*
