Commission Implementing Decision (EU) 2020/210 of 14 February 2020 amending the Annex to Implementing Decision (EU) 2020/47 on protective measures in relation to highly pathogenic avian influenza of subtype H5N8 in certain Member States (notified under document C(2020) 963) (Text with EEA relevance)

COMMISSION IMPLEMENTING DECISION (EU) 2020/210

of 14 February 2020

amending the Annex to Implementing Decision (EU) 2020/47 on protective measures in relation to highly pathogenic avian influenza of subtype H5N8 in certain Member States

(notified under document C(2020) 963)

(Text with EEA relevance)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Council Directive 89/662/EEC of 11 December 1989 concerning veterinary checks in intra-Community trade with a view to the completion of the internal market[(1)], and in particular Article 9(4) thereof,

Having regard to Council Directive 90/425/EEC of 26 June 1990 concerning veterinary checks applicable in intra-Union trade in certain live animals and products with a view to the completion of the internal market[(2)], and in particular Article 10(4) thereof,

Whereas:

(1) Commission Implementing Decision (EU) 2020/47[(3)] was adopted following outbreaks of highly pathogenic avian influenza of subtype H5N8 in holdings where poultry are kept in certain Member States and the establishment of protection and surveillance zones by those Member States in accordance with Council Directive 2005/94/EC[(4)].

(2) Implementing Decision (EU) 2020/47 provides that the protection and surveillance zones established by the Member States listed in the Annex to that Implementing Decision, in accordance with Directive 2005/94/EC, are to comprise at least the areas listed as protection and surveillance zones in that Annex.

(3) The Annex to Implementing Decision (EU) 2020/47 was recently amended by Commission Implementing Decision (EU) 2020/175[(5)], following instances of highly pathogenic avian influenza of subtype H5N8 in poultry in Poland that needed to be reflected in that Annex.

(4) Since the date of adoption of Implementing Decision (EU) 2020/175, Poland has notified the Commission of additional outbreaks of highly pathogenic avian influenza of subtype H5N8 in holdings where poultry are kept, in the Ostrodzki district.

Changes to legislation: *Commission Implementing Decision (EU) 2020/210 is up to date with all changes known to be in force on or before 24 December 2020. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) View outstanding changes*

(5) In addition, Germany has notified the Commission of an outbreak of highly pathogenic avian influenza of subtype H5N8 in a holding where poultry are kept in the Hohenlohe district.

(6) The new outbreaks in Poland and Germany are outside the areas currently listed in the Annex to Implementing Decision (EU) 2020/47, and the competent authorities of those Member States have taken the necessary measures required in accordance with Directive 2005/94/EC, including the establishment of protection and surveillance zones around those new outbreaks.

(7) The Commission has examined the measures taken by Poland and Germany in accordance with Directive 2005/94/EC and it is satisfied that the boundaries of the protection and surveillance zones, established by the competent authorities of those Member States, are at a sufficient distance to the holdings where the recent outbreaks of highly pathogenic avian influenza of subtype H5N8 have been confirmed.

(8) In order to prevent any unnecessary disturbance to trade within the Union and to avoid unjustified barriers to trade being imposed by third countries, it is necessary to rapidly describe at Union level, in collaboration with Poland and Germany, the new protection and surveillance zones established by those Member States in accordance with Directive 2005/94/EC. Therefore, the protection and surveillance zones listed for Poland, in the Annex to Implementing Decision (EU) 2020/47, should be amended, and new protection and surveillance zones should be listed for Germany.

(9) Accordingly, the Annex to Implementing Decision (EU) 2020/47 should be amended to update regionalisation at Union level to include the new protection and surveillance zones established by Poland and Germany, in accordance with Directive 2005/94/EC, and the duration of the restrictions applicable therein.

(10) Implementing Decision (EU) 2020/47 should therefore be amended accordingly.

(11) Given the urgency of the epidemiological situation in the Union as regards the spread of highly pathogenic avian influenza of subtype H5N8, it is important that the amendments made to the Annex to Implementing Decision (EU) 2020/47 by this Decision should take effect as soon as possible.

(12) The measures provided for in this Decision are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,

HAS ADOPTED THIS DECISION:

Article 1

The Annex to Implementing Decision (EU) 2020/47 is replaced by the text set out in the Annex to this Decision.

Article 2

This Decision is addressed to the Member States.

***Changes to legislation:** Commission Implementing Decision (EU) 2020/210 is up to date with all changes known to be in force on or before 24 December 2020. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) View outstanding changes*

Done at Brussels, 14 February 2020.
