Commission Implementing Decision (EU) 2019/1931 of 19 November 2019 amending the Annex to Implementing Decision 2014/709/EU concerning animal health control measures relating to African swine fever in certain Member States (notified under document C(2019) 8424) (Text with EEA relevance)

COMMISSION IMPLEMENTING DECISION (EU) 2019/1931

of 19 November 2019

amending the Annex to Implementing Decision 2014/709/EU concerning animal health control measures relating to African swine fever in certain Member States

(notified under document C(2019) 8424)

(Text with EEA relevance)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Council Directive 89/662/EEC of 11 December 1989 concerning veterinary checks in intra-Community trade with a view to the completion of the internal market[(1)], and in particular Article 9(4) thereof,

Having regard to Council Directive 90/425/EEC of 26 June 1990 concerning veterinary checks applicable in intra-Union trade in certain live animals and products with a view to the completion of the internal market[(2)], and in particular Article 10(4) thereof,

Having regard to Council Directive 2002/99/EC of 16 December 2002 laying down the animal health rules governing the production, processing, distribution and introduction of products of animal origin for human consumption[(3)], and in particular Article 4(3) thereof,

Whereas:

(1) Commission Implementing Decision 2014/709/EU[(4)] lays down animal health control measures in relation to African swine fever in certain Member States, where there have been confirmed cases of that disease in domestic or feral pigs (the Member States concerned). The Annex to that Implementing Decision demarcates and lists certain areas of the Member States concerned in Parts I to IV thereof, differentiated by the level of risk based on the epidemiological situation as regards that disease. The Annex to Implementing Decision 2014/709/EU has been amended several times to take account of changes in the epidemiological situation in the Union as regards African swine fever that need to be reflected in that Annex. The Annex to Implementing Decision 2014/709/EU was last amended by Commission Implementing Decision (EU) 2019/1900[(5)], following instances of African swine fever in Romania.

(2) Council Directive 2002/60/EC[(6)] lays down the minimum Union measures to be taken for the control of African swine fever. In particular, Article 9 of Directive 2002/60/EC provides for the establishment of a protection and a surveillance zone when African

swine fever has been officially confirmed in pigs on a holding, and Articles 10 and 11 of that Directive lay down the measures to be taken in the protection and surveillance zones in order to prevent the spread of that disease. Recent experience has shown that the measures laid down in Directive 2002/60/EC are effective in controlling the spread of that disease, and in particular the measures providing for the cleaning and disinfecting of infected holdings and other measures related to the eradication of that disease.

(3) Since the date of adoption of Implementing Decision (EU) 2019/1900, there have been further cases of African swine fever in feral pigs in Poland. In addition, the epidemiological situation in Lithuania has improved as regards domestic pigs due to the measures being applied by that Member State in accordance with Directive 2002/60/EC.

(4) Taking into account the effectiveness of the measures being applied in Lithuania in accordance with Directive 2002/60/EC, and in particular those laid down in Article 10(4)(b) and Article 10(5) thereof, and in line with the risk mitigation measures for African swine fever set out in the Terrestrial Animal Health Code of the World Organisation for Animal Health (the OIE Code), certain areas in the counties of Šiauliai and Marijampolė in Lithuania currently listed in Part III of the Annex to Implementing Decision 2014/709/EU should now be listed in Part II of that Annex, in view of the expiry of the period of three months from the date of the final cleaning and disinfection of the infected holding and due to the absence of African swine fever outbreaks in those areas for the past three months in accordance with the OIE Code. Given that Part III of the Annex to Implementing Decision 2014/709/EU lists the areas where the epidemiological situation is still evolving and very dynamic, when any amendments are made to areas listed in that Part, particular consideration must always be given to the effect on the surrounding areas, as has been done in this instance.

(5) Following these recent cases of African swine fever in feral pigs in Poland, and taking into account the current epidemiological situation in the Union, regionalisation in this Member State has been reassessed and updated. In addition, the risk management measures in place also have been reassessed and updated. These changes need to be reflected in the Annex to Implementing Decision 2014/709/EU.

(6) In November 2019, two cases of African swine fever in feral pigs were observed in the districts of wschowski and nowosolski in Poland in an area currently not listed in the Annex to Implementing Decision 2014/709/EU, and being less than three hundred kilometres away from the nearest area currently listed in the Annex. These cases of African swine fever in feral pigs constitute an increased level of risk which should be reflected in that Annex. Accordingly, this area of Poland affected by these recent cases of African swine fever should now be listed in Parts I and II of that Annex.

(7) In order to take account of recent developments in the epidemiological evolution of African swine fever in the Union, and in order to combat the risks associated with the spread of that disease in a proactive manner, new high-risk areas of a sufficient size should be demarcated for Lithuania and Poland and duly listed in Parts I and II of the Annex to Implementing Decision 2014/709/EU. The Annex to Implementing Decision 2014/709/EU should therefore be amended accordingly.

(8) The measures provided for in this Decision are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,

HAS ADOPTED THIS DECISION:

Article 1

The Annex to Implementing Decision 2014/709/EU is replaced by the text set out in the Annex to this Decision.

Article 2

This Decision is addressed to the Member States.
