# Commission Implementing Decision (EU) 2019/328 of 25 February 2019 laying down measures for keeping and accessing the logs in the Entry/Exit System (EES)

## COMMISSION IMPLEMENTING DECISION (EU) 2019/328

## of 25 February 2019

## laying down measures for keeping and accessing the logs in the Entry/Exit System (EES)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) 2017/2226 of the European Parliament and of the Council of 30 November 2017 establishing an Entry/Exit System (EES) to register entry and exit data and refusal of entry data of third-country nationals crossing the external borders of the Member States and determining the conditions for access to the EES for law enforcement purposes, and amending the Convention implementing the Schengen Agreement and Regulations (EC) No 767/2008 and (EU) No 1077/2011[(1)], and in particular point (f) of the first paragraph of Article 36 thereof,

Whereas:

(1) Regulation (EU) 2017/2226 established the Entry/Exit System (EES) as a system which registers electronically the time and place of entry and exit of third-country nationals admitted for a short stay to the territory of the Member States and which calculates the duration of their authorised stay.

(2) The EES aims to improve the management of external borders, to prevent irregular immigration and to facilitate the management of migration flows. The EES should in particular contribute to the identification of any person who does not fulfil or no longer fulfils the conditions of the authorised stay on the territory of the Member States. Additionally, the EES should contribute to the prevention, detection and investigation of terrorist offences and of other serious criminal offences.

(3) Prior to the development of the EES it is necessary to adopt measures for the development and technical implementation of the EES.

(4) Based on those measures, the European agency for the operational management of large-scale information systems in the area of freedom, security and justice should then be able to define the design of the physical architecture of the EES including its Communication Infrastructure, as well as the technical specifications of the system and to develop the EES.

(5) The measures laid down by this Decision for the development and technical implementation of the EES should be completed by the Technical Specifications and the Interface Control Document of the EES which will be developed by the European agency for the operational management of large-scale information systems in the area of freedom, security and justice.

(6) In accordance with Articles 1 and 2 of Protocol No 22 on the position of Denmark, annexed to the Treaty on European Union and to the Treaty on the Functioning of the European Union, Denmark did not take part in the adoption of Regulation (EU) 2017/2226 and is not bound by it or subject to its application. However, given that Regulation (EU) 2017/2226 builds upon the Schengen acquis, Denmark, in accordance with Article 4 of that Protocol, notified on 30 May 2018 its decision to implement Regulation (EU) 2017/2226 in its national law. Denmark is therefore bound under international law to implement this Decision.

(7) This Decision is without prejudice to the application of Directive 2004/38/EC of the European Parliament and of the Council[(2)].

(8) This Decision constitutes a development of the provisions of the Schengen *acquis* in which the United Kingdom does not take part, in accordance with Council Decision 2000/365/EC[(3)]; the United Kingdom is therefore not taking part in the adoption of this Decision and is not bound by it or subject to its application.

(9) This Decision constitutes a development of the provisions of the Schengen *acquis* in which Ireland does not take part, in accordance with Council Decision 2002/192/EC[(4)]; Ireland is therefore not taking part in the adoption of this Decision and is not bound by it or subject to its application.

(10) As regards Iceland and Norway, this Decision constitutes a development of the provisions of the Schengen *acquis* within the meaning of the Agreement concluded by the Council of the European Union and the Republic of Iceland and the Kingdom of Norway concerning the latter's association with the implementation, application and development of the Schengen acquis[(5)], which fall within the area referred to in Article 1, point A of Council Decision 1999/437/EC[(6)].

(11) As regards Switzerland, this Decision constitutes a development of the provisions of the Schengen acquis within the meaning of the Agreement between the European Union, the European Community and the Swiss Confederation on the Swiss Confederation's association with the implementation, application and development of the Schengen acquis[(7)], which fall within the area referred to in Article 1, point A of Decision 1999/437/EC, read in conjunction with Article 3 of Council Decision 2008/146/EC[(8)].

(12) As regards Liechtenstein, this Decision constitutes a development of the provisions of the Schengen acquis within the meaning of the Protocol between the European Union, the European Community, the Swiss Confederation and the Principality of Liechtenstein on the accession of the Principality of Liechtenstein to the Agreement between the European Union, the European Community and the Swiss Confederation on the Swiss Confederation's association with the implementation, application and development of the Schengen acquis[(9)] which fall within the area referred to in Article 1, point A of Decision 1999/437/EC read in conjunction with Article 3 of Council Decision 2011/350/EU[(10)].

(13) As regards Cyprus, Bulgaria, Romania and Croatia, the operation of the EES requires the granting of passive access to the VIS and the putting into effect of all the provisions of the Schengen acquis relating to the SIS in accordance with the relevant Council

Decisions. Those conditions can only be met once the verification in accordance with the applicable Schengen evaluation procedure has been successfully completed. Therefore, the EES should be operated only by those Member States which fulfil those conditions by the start of operations of the EES. Member States not operating the EES from the initial start of operations should be connected to the EES in accordance with the procedure set out in Regulation (EU) 2017/2226 as soon as all of those conditions are met.

(14) The European Data Protection Supervisor delivered an opinion on 20 July 2018.

(15) The measures provided for in this Decision are in accordance with the opinion of the Smart Borders Committee,

HAS ADOPTED THIS DECISION:

*Article 1*

The measures necessary for the technical implementation of the EES in relation to the procedures for keeping and accessing the logs in accordance with Article 46 of the Regulation (EU) 2017/2226 shall be as set out in the Annex to this Decision.

*Article 2*

This Decision shall enter into force on the twentieth day following that of its publication in the *Official Journal of the European Union*.

Done at Brussels, 25 February 2019.

*For the Commission*

*The President*

Jean-Claude JUNCKER
