Commission Implementing Decision (EU) 2018/2029 of 18 December 2018 determining quantitative limits and allocating quotas for substances controlled under Regulation (EC) No 1005/2009 of the European Parliament and of the Council on substances that deplete the ozone layer, for the period 1 January to 31 December 2019 (notified under document C(2018) 8655) (Only the Croatian, Czech, Dutch, English, French, German, Greek, Hungarian, Italian, Latvian, Maltese, Polish, Portuguese and Spanish texts are authentic)

COMMISSION IMPLEMENTING DECISION (EU) 2018/2029

of 18 December 2018

determining quantitative limits and allocating quotas for substances controlled under Regulation (EC) No 1005/2009 of the European Parliament and of the Council on substances that deplete the ozone layer, for the period 1 January to 31 December 2019

(notified under document C(2018) 8655)

(Only the Croatian, Czech, Dutch, English, French, German, Greek, Hungarian, Italian, Latvian, Maltese, Polish, Portuguese and Spanish texts are authentic)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 1005/2009 of the European Parliament and of the Council of 16 September 2009 on substances that deplete the ozone layer[(1)], and in particular Articles 10(2) and 16(1) thereof,

Whereas:

(1) The release for free circulation in the Union of imported controlled substances is subject to quantitative limits.

(2) The Commission is required to determine those limits and allocate quotas to undertakings.

(3) Furthermore, the Commission is required to determine the quantities of controlled substances other than hydrochlorofluorocarbons that may be used for essential laboratory and analytical uses, and the undertakings that may use them.

(4) The determination of the allocated quotas for essential laboratory and analytical uses has to ensure that the quantitative limits set out in Article 10(6) of Regulation (EC) No 1005/2009 are respected, applying Commission Regulation (EU) No 537/2011[(2)]. As those quantitative limits include quantities of hydrochlorofluorocarbons licensed for laboratory and analytical uses, the production and import of hydrochlorofluorocarbons for those uses should also be covered by that allocation.

(5) The Commission has published a notice to undertakings intending to import or export controlled substances that deplete the ozone layer to or from the European Union in

Changes to legislation: *There are currently no known outstanding effects for the Commission Implementing Decision (EU) 2018/2029. (See end of Document for details)*

2019 and to undertakings intending to produce or import these substances for laboratory and analytical uses in 2019[3], and has thereby received declarations on intended imports in 2019.

(6) The quantitative limits and quotas should be determined for the period 1 January to 31 December 2019, in line with the annual reporting cycle under the Montreal Protocol on Substances that Deplete the Ozone Layer.

(7) The measures provided for in this Decision are in accordance with the opinion of the Committee established by Article 25(1) of Regulation (EC) No 1005/2009,

HAS ADOPTED THIS DECISION:

Article 1

Quantitative limits for release for free circulation

The quantities of controlled substances subject to Regulation (EC) No 1005/2009 which may be released for free circulation in the Union in 2019 from sources outside the Union shall be the followings:

Controlled substances	Quantity (in ozone depleting potential (ODP) kilograms)
Group I (chlorofluorocarbons 11, 12, 113, 114 and 115) and group II (other fully halogenated chlorofluorocarbons)	2 200 510,0
Group III (halons)	24 247 100,0
Group IV (carbon tetrachloride)	22 363 561,0
Group V (1,1,1-trichloroethane)	1 700 000,0
Group VI (methyl bromide)	480 912,0
Group VII (hydrobromofluorocarbons)	4 917,0
Group VIII (hydrochlorofluorocarbons)	5 077 008,03
Group IX (bromochloromethane)	324 024,0

Article 2

Allocation of quotas for release for free circulation

1 The allocation of quotas for chlorofluorocarbons 11, 12, 113, 114 and 115 and other fully halogenated chlorofluorocarbons during the period 1 January to 31 December 2019 shall be for the purposes and to the undertakings indicated in Annex I.

2 The allocation of quotas for halons during the period 1 January to 31 December 2019 shall be for the purposes and to the undertakings indicated in Annex II.

3 The allocation of quotas for carbon tetrachloride during the period 1 January to 31 December 2019 shall be for the purposes and to the undertakings indicated in Annex III.

4 The allocation of quotas for 1,1,1-trichloroethane during the period 1 January to 31 December 2019 shall be for the purposes and to the undertakings indicated in Annex IV.

5 The allocation of quotas for methyl bromide during the period 1 January to 31 December 2019 shall be for the purposes and to the undertakings indicated in Annex V.

6 The allocation of quotas for hydrobromofluorocarbons during the period 1 January to 31 December 2019 shall be for the purposes and to the undertakings indicated in Annex VI.

7 The allocation of quotas for hydrochlorofluorocarbons during the period 1 January to 31 December 2019 shall be for the purposes and to the undertakings indicated in Annex VII.

8 The allocation of quotas for bromochloromethane during the period 1 January to 31 December 2019 shall be for the purposes and to the undertakings indicated in Annex VIII.

9 The individual quotas for undertakings shall be as set out in Annex IX.

Article 3

Quotas for laboratory and analytical uses

The quotas for importing and producing controlled substances for laboratory and analytical uses in the year 2019 shall be allocated to the undertakings listed in Annex X.

The maximum quantities that may be produced or imported in 2019 for laboratory and analytical uses allocated to those undertakings are set out in Annex XI.

Article 4

Period of validity

This Decision shall apply from 1 January 2019 and shall expire on 31 December 2019.

Article 5
