Council Directive of 30 July 1964 concerning co-ordinated annual surveys of investment in industry (64/475/EEC)

COUNCIL DIRECTIVE

of 30 July 1964

concerning co-ordinated annual surveys of investment in industry

(64/475/EEC)

THE COUNCIL OF THE EUROPEAN ECONOMIC COMMUNITY,

Having regard to the Treaty establishing the European Economic Community, and in particular Article 213 thereof;

Having regard to the draft submitted by the Commission;

Whereas in order to carry out the tasks entrusted to it under the Treaty the Commission must have at its disposal annual statistics on the trend of investment in the industries of the Community;

Whereas in the industrial survey for 1962 comparable basic data on the essential characteristics of industry were collected for the first time; whereas such a census cannot be carried out frequently; whereas annual statistics concerning certain basic matters cannot however be dispensed with for the intervening years; whereas, in this respect, investment is of such importance that the statistical offices of most Member States have been collecting data of that kind for several years;

Whereas, however, it is indispensable that such annual statistics be put at the disposal of the Commission by all Member States in co-ordinated form, as regards concept and method, so that comparable results for the six Member States may be obtained following a similar breakdown by industrial sector;

HAS ADOPTED THIS DIRECTIVE:

Article 1

The Member States, in technical co-operation with the Commission, shall take all necessary steps to carry out co-ordinated annual surveys on investment in industry and to ensure that the first survey, for the year 1964, is carried out in 1965 **[**[F1]and, in the case of new Member States, all appropriate arrangements shall be made to ensure that the first survey, covering the year of their accession, is carried out in the year following that of accession.**]**

Textual Amendments

F1 Substituted by Act concerning the conditions of accession of the Kingdom of Spain and the Portuguese Republic and the adjustments to the Treaties.

Status: *EU Directives are being published on this site to aid cross referencing from UK legislation. After exit day no further amendments will be applied to this version.*

Article 2

For the purposes of this Directive, an industry shall be defined by reference to the 'Nomenclature of Industries in the European Communities' (NICE).[1] In the case of small undertakings the survey may be carried out by random sampling.

Article 3

The figures to be recorded shall be those in respect of annual investment expenditure (including plant constructed by the undertakings themselves), broken down as follows:

(a) Machinery, plant, vehicles;

(b) Construction of buildings;

(c) Purchase of existing buildings and of land.

Investments of a social nature shall, where possible, be recorded globally in a separate return.

Article 4

Subject to any national legislation on the secrecy of statistics, the results of the surveys, broken down by industrial sector, shall be forwarded to the Commission.

Article 5

This Directive is addressed to the Member States.

Status: *EU Directives are being published on this site to aid cross referencing from UK legislation. After exit day no further amendments will be applied to this version.*

ANNEX

NOMENCLATURE OF INDUSTRIES IN THE EUROPEAN COMMUNITIES — NICE

BRANCHES, MAJOR GROUPS, GROUPS, SUBGROUPS AND SUBDIVISIONS

1. MINING AND QUARRYING			
11			**Mining and preparation of solid fuels**
	111		*Mining and preparation of coal*
		111.1	Mining and preparation of coal (coal mines proper, washing and grading)
		111.2	Manufacture of manufactured coal fuels
		111.3	Manufacture of coal coke (mines' coking plants and independent coking plants)
		111.4	Manufacture of coal semi-coke
	112		*Mining and preparation of lignite*
		112.1	Mining and preparation of old lignite (lignite of Provence)
		112.2	Mining and preparation of recent lignite (lignite other than lignite of Provence)
12			**Mining of metalliferous ores**
	121		*Mining of iron ore*
	122		*Mining of non-ferrous metalliferous ores*
		122.1	Mining of non-ferrous metalliferous ores
		122.2	Activities connected with the mining of non-ferrous metalliferous ores (milling, fritting, concentration, etc.)
13	*130*		**Extraction of petroleum and natural gas**
		130.1	Extraction of petroleum

a The manufacture of panels agglomerated with mineral binders is classified under Group 335.

b The insulating tubes (mainly in non-ferrous metals and lined with proofed material) are classified under electrical construction.

c For France and Belgium in particular.

d Not carried out by railway companies.

Status: *EU Directives are being published on this site to aid cross referencing from UK legislation. After exit day no further amendments will be applied to this version.*

		130.2	Extraction and refining of natural gas.
		130.3	Extraction of bituminous shale
		130.4	Prospection for petroleum and natural gas
14	*140*		**Mining or quarrying of building materials and fireclays**
		140.1	Slate quarries
		140.2	Stone quarries (limestone, marble, sandstone for milling, sandstone, lava, hard stone, granite, basalt, porphyry, etc.)
		140.3	Extraction of chalk and limestone additives
		140.4	Extraction or dredging of sands, pebbles and gravels
		140.5	Extraction of marl or stones for the manufacture of lime and cement
		140.6	Extraction of gypsum
		140.7	Extraction of clay, brick clay and kaolin
19	*190*		**Mining or quarrying of other minerals and of peat**
		190.1	Salt marshes
		190.2	Mines and salt mines
		.21	Rock salt mines
		.22	Salt works
		190.3	Mining of potassium salt
		190.4	Mining of sulphur and pyrite
		190.5	Mining of asphalt and bitumen
		190.6	Mining of natural limestone phosphate
		190.7	Quarrying of dolomite, pumice stone and pozzolana

a The manufacture of panels agglomerated with mineral binders is classified under Group 335.

b The insulating tubes (mainly in non-ferrous metals and lined with proofed material) are classified under electrical construction.

c For France and Belgium in particular.

d Not carried out by railway companies.

		190.8	Mining or quarrying of miscellaneous mineral products
		.81	Mining of talc and steatite; preparation of talc
		.82	Mining of asbestos
		.83	Mining of fossil silica and kieselguhr; preparation of bricks and proofings of these materials
		.84	Mining or quarrying of feldspar, quartz and pegmatite
		.85	Mining or quarrying of fluorspar
		.86	Mining or barium and strontium ore
		.87	Mining or quarrying of other mineral products: gemstones, mica, graphite, alum, magnesia, etc.
		190.9	Peat
2 and 3. MANUFACTURING INDUSTRIES			
20 A	*200*		**Industries producing animal and vegetable fats and oils**
			Melting houses for animal fats (land animals) are classified under 201.5 and chemical processing—other than hydrogenation—oxidisation, vacuum treatment, hydrolysis, etc. of animal and vegetable fats under the chemical industry
		200.1	Production of fats from marine animals
		200.2	Production of olive oil
		200.3	Crushing (pressing and extraction) of oil-bearing seeds
		200.4	Refining, hydrogenation and other similar processing of animal and vegetable fats
		200.5	Production of margarine and similar food fats
20 B			**Food manufacturing industries** (excluding the beverage industry)

a The manufacture of panels agglomerated with mineral binders is classified under Group 335.

b The insulating tubes (mainly in non-ferrous metals and lined with proofed material) are classified under electrical construction.

c For France and Belgium in particular.

d Not carried out by railway companies.
