

Productive development in open economies

UNITED NATIONS

ECLAC

THIRTIETH SESSION OF ECLAC
SAN JUAN, PUERTO RICO
28 JUNE – 2 JULY 2004

Distr.
GENERAL
LC/G.2234(SES.30/3)
18 June 2004
ENGLISH
ORIGINAL: SPANISH

The preparation of this document was coordinated by José Luis Machinea, Executive Secretary of ECLAC, and Juan Martín, Special Adviser to the Executive Secretary, in collaboration with Alicia Bárcena, Deputy Executive Secretary of ECLAC.

The first part of the document was prepared by the coordinators using inputs from Martine Dirven, Daniel Heymann, Sandra Manuelito, Jorge Martínez, Michael Mortimore, Annalisa Primi and Verónica Silva. The second part was the responsibility of Daniel Titelman, who received inputs from Hugo Altomonte, Jean Acquatella, Gabriela Clivio, José Javier Gómez, Luis Lucioni, Ricardo Martner, Carlos de Miguel, Graciela Moguillansky, Patricio Rosas, Fernando Sánchez Albavera, Marianne Schaper and Miguel Solanes, as well as the consultant Pedro Cavalcanti Ferreira.

The third part of the study was prepared by João Carlos Ferraz and Osvaldo Kacef with the collaboration of Oscar Altimir and inputs from Renato Baumann, Rudolf Buitelaar, Mario Cimoli, Francisco Gatto, Martín Gilbert, Mónica Kjollerstrom, Bernardo Kosacoff, Wilson Peres and Iván Silva. Andras Uthoff was in charge of preparing the fourth part of the document, for which inputs were furnished by Beverly Carlson, Ernesto Espíndola, Juan Carlos Feres, Martín Hopenhayn, Guillermo Labarca, Arturo León, Juan Carlos Ramírez, Nora Ruedi and Jürgen Weller, as well as the consultant Víctor Tokman. The fifth part of the study was the responsibility of Ricardo Carciofi, in cooperation with José Durán and Mikio Kuwayama. Reynaldo Bajraj and Ricardo Ffrench-Davis provided comments on a number of the chapters.

Notes and explanation of symbols

The following symbols have been used in the tables in this report:

Three dots (...) indicate that data are not available or are not separately reported.

The dash (-) indicates that the amount is nil or negligible.

A full stop (.) is used to indicate decimals.

Use of a hyphen (-) between years, e.g., 1971-1973, signifies an annual average for the calendar years involved, including the beginning and the end years.

References to "dollars" United States dollars, unless otherwise stated.

Figures and percentages in tables may not necessarily add up to the corresponding totals, because of rounding.

Contents

Presentation	13
Part one: Latin America and the Caribbean in the international context	17
Introduction	19
Chapter 1	
The evolving international context	21
I. Basic features of the globalized economy	22
1. The loss of world economic dynamism	22
2. Exports and economic growth: a weakened relationship.....	26
3. The global leadership of multinationals.....	29
4. The predominance of financial capital and the volatility of flows	33
5. The concentration of innovation and technical progress.....	37
II. International regimes	39
1. Macroeconomic and financial regimes	40
2. Multilateral trade negotiations	44
3. Environmental sustainability.....	48
4. International migration.....	51
Chapter 2	
The global economic performance of Latin America and the Caribbean	55
I. Stylized facts related to development in Latin America and the Caribbean in the 1990s.....	56
1. Greater trade liberalization.....	59

2.	Meagre and volatile economic growth	64
3.	Increased structural disparity among the region's economies	69
II.	Strategic guidelines for development in open economies.....	76
1.	Features of economic development	77
2.	Principal components of the development process.....	78
3.	Some strategic guidelines for public intervention	83

Part two: The macroeconomy, investment and sustainable development .. 87

Introduction	89
---------------------------	----

Chapter 3

The macroeconomy and financial development for growth..... 91

I.	The macroeconomic backdrop.....	92
1.	External financial trends, business cycles and vulnerability	92
2.	Fiscal policy and public finances.....	95
3.	Exchange-rate and monetary policy	97
II.	The performance of domestic investment and saving.....	101
III.	Financial markets.....	105
1.	Expansion of the financial system.....	106
2.	The banking sector	110
3.	The non-bank financial market.....	112
IV.	Putting macroeconomic and financial policies to work for productive development.....	115
1.	Macroeconomic policy	115
2.	Financial market development.....	119

Chapter 4

Growth, infrastructure and sustainable development..... 125

I.	Infrastructure, financing and regulations	126
1.	Infrastructure capital stock	126
2.	Growth and infrastructure.....	128
3.	Infrastructure requirements	130
4.	Policies and instruments for stimulating infrastructure investment.....	131
II.	Productive structure, natural resources and environment	140
1.	Environmental challenges and dynamic sectors.....	142
2.	Proposals for an environmental agenda compatible with productive development	152

Part three: The region's external position and productive development policies..... 159

Introduction	161
---------------------------	-----

Chapter 5

Policies for improving the Latin American and Caribbean region's trade linkages..... 165

I.	Export performance and development.....	166
1.	Export dynamics and regional openness	166
2.	Export patterns and trade composition	170
II.	Policies for developing linkages with the global economy.....	177
1.	General context.....	177
2.	Export promotion systems	178

3.	Market access and penetration: a new institutional framework	187
4.	Market access and market penetration: multilateral, subregional and bilateral agreements.....	188
III.	Outstanding challenges with respect to the promotion of international trade linkages and development	192
1.	General framework.....	192
2.	The importance of signals from the system of relative prices.....	193
3.	Export promotion instruments.....	193
4.	International negotiations.....	194
5.	The regional agenda and FTAA	195
Chapter 6		
Policies to promote innovation and technological development		
I.	Promoting innovation in the region	199
II.	Changes in the technology policy model.....	203
1.	The linear supply model.....	203
2.	The demand-side model	204
3.	Technology funds.....	206
III.	Strategic dimensions of the promotion of innovation and technical progress	210
1.	The magnitude of the resources required	211
2.	Transnational corporations.....	212
3.	Local enterprises and strengthening of the national innovation system.....	213
4.	Modernization of small and medium-sized enterprises (SMEs)	214
5.	The digital infrastructure	215
6.	The science and technology infrastructure	215
7.	Investment in human capital	215
IV.	Policy formulation and coordination	216
1.	Policy instruments	216
2.	Resources	218
3.	Managing intellectual property systems.....	219
4.	Policy linkage and coordination	220
Chapter 7		
Entrepreneurial development and production chains.....		
I.	Policies to create and support business enterprises	225
1.	Modernization of the legal framework and tax incentives for production activity and investment	225
2.	The entrepreneurial development process, main areas targeted by public and private action	227
3.	Policy towards informal enterprises	233
II.	Entrepreneurial linkages	235
1.	Partnership among small enterprises: horizontal linkage	239
2.	Large and small enterprises: vertical linkage	239
3.	Encouraging territorial linkage.....	240
4.	Promoting strategic management in clusters.....	242
5.	Towards an evaluation of linkage initiatives.....	244
III.	Overview	245

Chapter 8

Policies to strengthen the productive structure	247
I. Practice and strategy of productive policies	249
II. Evaluation of implementation and impact	257
III. Final comments.....	259
Appendix – National strategies on information and communication technologies (ICT).....	261

**Part four: Employment, social protection and education: towards
a covenant of social cohesion**.....

Introduction	271
---------------------------	-----

Chapter 9

Employment and social cohesion in open economies	273
I. Employment and the labour market.....	275
1. Family welfare and labour supply	275
2. Competitiveness, technological innovation and labour flexibility	280
3. “De facto” flexibility: informal employment and wage-structure determination	282
II. Policy and “labour institutionalality” geared to the formal sector.....	285
1. Reforms based on labour flexibility	286
2. Labour flexibility, social protection and job training	287
3. Positive and reasonable labour flexibility with social protection	288
4. Flexibility and transparency in the labour market	289
III. Labour demand	289
1. Job creation policies	289
2. Policies directed towards the informal sector	291
IV. Labour market, education and vocational training	295
1. Advances in formal education	296
2. Technical education and vocational training institutions	298
3. Combining public and private initiatives and vocational training	299
V. A social cohesion covenant.....	302
1. Social cohesion and macroeconomic constraints	304
2. Social cohesion and employment	304
3. Social cohesion and social protection.....	306
4. Social cohesion, education and training	307

Chapter 10

Education and productive development	309
I. Advances in education	310
1. Education spending and its distribution.....	313
2. Principal data regarding access and quality	317
II. Education, equity and the intergenerational transfer of inequality	318
1. Educational continuity and community commitment.....	319
2. Pre-system, intra-system and post-system equity	321
3. Adequate and timely education: towards complete secondary schooling ..	322
III. Education, competitiveness and productive development	323
1. Education and mobility in a context of diversity	323
2. Higher education and scientific and technological development	324

IV.	Education, communication, the information culture and productive development	325
1.	Differences in access, and ways of remedying them.....	326
2.	Differences of meaning between information and communication technologies, culture and education	329
V.	Policy recommendations.....	329

Part five: Institution-building and governance337

Introduction.....339

Chapter 11

Institutional strengthening.....341

I.	Institutions and their relation to economic growth.....	342
II.	Stability and institutional change	343
III.	Latin America: “second-generation” reforms and institutional modernization.....	344
IV.	Reform deepening: institutional efficiency and political management of the reforms	349

Chapter 12

The key role of regional and subregional spaces.....353

I.	Mechanisms to deepen integration	354
1.	Competition policy.....	355
2.	Trade facilitation	355
3.	Sanitary and phytosanitary measures and technical barriers to trade.....	356
4.	Physical infrastructure and sustainable development.....	356
5.	Coordination of macroeconomic policies and financing for development.....	359
6.	Social cohesion.....	361
II.	Regional integration and North-South integration initiatives.....	363
III.	Conclusions	364

Bibliography.....365

Tables
