The outlook for oceans, seas and marine resources in Latin America and the Caribbean

Conservation, sustainable development and
climate change mitigation

Marcia Tambutti
José Javier Gómez
Editors

Norwegian Ministry of
Foreign Affairs

This document has been prepared by Porfirio Álvarez, Enrique Sanjurjo, Sergio Larios and Rosalinda Amezcua, under the supervision of Marcia Tambutti, Agriculture and Biodiversity Unit, Division of Natural Resources of the Economic Commission for Latin America and the Caribbean (ECLAC), and José Javier Gómez, Economics of Climate Change Unit, Division of Sustainable Development and Human Settlements of ECLAC, under the ECLAC/Ministry of Foreign Affairs of Norway project "Regional reports on the state of the oceans in the LAC region".

Thanks are owed for contributions of information and valuable conceptual inputs to: Raffaella Anilio, Horacio Castellaro, Margarita García Martínez, Carolina Quiróz Salazar, Jeannette Sánchez, Paul Wander and Zitlaly Zavala.

The views expressed in this document, which has been reproduced without formal editing, are those of the authors and do not necessarily reflect the views of the Organization.

The boundaries and names shown on the maps included in this publication do not imply official endorsement or acceptance by the United Nations.

Contents

Foreword	7
Introduction	9
I. Geopolitical configuration used in this study.....	11
A. FAO fishing areas in the LAC region	12
B. Large Marine Ecosystems	12
II. Target 14.1.....	13
A. Chemical and nutrient pollution	13
B. Marine debris and plastics	15
C. Identified relevant actions in the region	16
III. Target 14.2.....	17
A. Protect and restore ecosystems to achieve healthy and productive oceans.....	17
IV. Target 14.3.....	21
V. Target 14.4.....	25
VI. Target 14.5.....	29
VII. Target 14.6.....	33
A. End of subsidies contributing to overfishing.....	33
B. Redirection of fishery subsidies	34
C. End illegal, unreported, and unregulated fishing (IUU)	35
VIII. Target 14.7.....	37
A. Small Island Developing States	37
B. Importance of tourism	38
C. Importance of fisheries	39
IX. Target 14.A	41
X. Target 14.B	45

XI. Target 14.C.....	49
XII. Climate Change and Ocean Conservation.....	53
A. Ocean-based renewable energy.....	54
B. Ocean-based transport	56
C. Coastal and marine ecosystems	57
D. Fisheries, aquaculture and dietary shifts.....	58
E. Carbon storage in the seabed.....	60
XIII. Recommendations.....	61
Reduce marine pollution.....	61
Minimize the impacts of climate change and ocean acidification	61
Accelerate the transition to more sustainable fishing.....	62
Protect and restore ecosystems and conserve coastal and marine areas.....	62
Increase the economic benefits to Small Island Developing States (SIDS)	63
Increase scientific knowledge about the ocean	63
Implementation of the Law of the Sea	63
Bibliography.....	65
Acronyms	72
Tables	
Table V.1	Annual wild fisheries production by subregion
Table VII.1	Main drivers associated with Illegal, Unreported and Unregulated Fishing and possible solutions.....
Table VIII.1	Latin American and Caribbean SIDS by United Nations membership
Table IX.1	Global Environment Facility (GEF) funded programmes established in six Large Marine Ecosystems of the LAC region and their core contribution to SDG 14 targets and indicators.....
Table XII.1	Total technical potential for offshore wind generation by region
Table XII.2	Potential in terms of restorable aboveground biomass and soil carbon
Figures	
Figure 1	Number of marine ecoregions present in each geographical region of the world
Figure III.1	Global and Latin American and Caribbean Ocean Health Index scores (2019)
Figure IV.1	Projections of coral reef risk for years 2030 and 2050 due to ocean acidification.....
Figure V.1	Sustainability of fish stocks in Latin America and the Caribbean
Figure VI.1	Total surface of marine protected areas in Latin America and the Caribbean (2000-2019)
Figure VII.1	Subsidies in the world, the five major subsidizer countries and in Latin America and the Caribbean
Figure VIII.1	Income generated by tourism in proportion to GDP
Figure VIII.2	Fish protein as a proportion of total animal protein consumption
Figure VIII.3	Sustainable fisheries as a proportion of GDP in SIDS, least developed countries, and all countries
Figure X.1	Relative importance of small-scale fisheries versus total fisheries in the region.....
Figure XII.1	Technical potential for offshore wind generation in Latin America and the Caribbean
Figure XII.2	Carbon emissions in food production.....

Maps

Map 1	Number of marine ecoregions present in each geographical region of the world	10
Map I.1	Latin American and Caribbean subregions, clustered fishing areas determined by the Food and Agriculture Organization and the associated 10 Large Marine Ecosystems (LMEs)	11
Map II.1	Eutrophication and hypoxic zones in the LAC region.....	14
Map II.2	LAC region merged nutrient indicator for 10 LMEs modelled for years 2000, 2030 and 2050.....	15
Map II.3	Distribution of micro weight density, macro count density and the total weight density of plastics in the LAC region	16
Map III.1	Ocean Health Index of Latin American and Caribbean Large Marine Ecosystems (2019).....	18
Map IV.1	Coral reef bleaching in Latin America and Caribbean region accordingly to NOAA categories (1963-2018) and local coral threats status according to UNEP (2016)	23
Map V.1	Voluntary schemes for transitioning towards sustainable fisheries in Latin America and the Caribbean	27
Map VI.1	Coverage of marine protected areas in relation to marine areas, by country	30
Map VII.1	Adherence of LAC countries to the international framework for addressing IUU.....	36
Map IX.1	Marine research stations across the LAC region	42
Map X.1	Activities identified by FAO to put small-scale fisheries guidelines in action.....	47
Map XI.1	Governance architecture assessment related to existing agreements in the LAC region	50
Map XI.2	Cartagena Convention: signature and ratification status, 2020.....	51
Map XII.1	Latin America and Caribbean: use of the different tools provided by IMO to reduce GHG from maritime transport	57
