Organization of the
United Nations**

This report was elaborated by Sinduja Srinivasan, Economic Affairs Officer in the Agricultural Development Unit of the Division of Production, Productivity and Management of the Economic Commission for Latin America and the Caribbean (ECLAC) and Milagro Saborío, consultant with the same Division, under the general supervision of Adrián Rodríguez, Chief of the Agricultural Development Unit and Cristian Morales (ESA/FAO), with contributions from Francisco Cerecera, Andrés Mondaini (consultants) and Bernardo Mayorga (intern). The research was funded by the agreement between FAO and ECLAC, "Patterns in the agricultural transformation process in Latin American countries: farm size, diversification and mechanization".

The views expressed in this document, which has been reproduced without formal editing, are those of the authors and do not necessarily reflect the views of the Organization.

Contents

Summary	7
Introduction.....	11
A. Theories about structural change.....	11
B. Agricultural trends of interest.....	13
I. National contexts.....	15
A. Nicaragua	15
1. Land reform.....	15
2. Sectoral trends.....	16
B. Peru.....	17
1. Land reform.....	17
2. Sectoral trends.....	18
3. Labor market.....	18
C. Summary of Possible Hypotheses	19
1. Nicaragua.....	19
2. Peru.....	20
II. Nicaragua	21
A. Trends in land use and the crop distribution.....	21
B. Farm size distribution	24
1. National and regional trends.....	24
2. Changes in land use and farm sizes.....	27
C. Land tenure.....	35
D. Labor.....	36
E. Mechanization.....	38

III.	Peru.....	43
	A. Trends in land use and crops	43
	B. Farm size distribution	46
	C. Land tenure.....	48
	D. Labor.....	50
	E. Mechanization.....	51
IV.	Comparative analysis and policy discussion	57
	A. Comparative Analysis	57
	1. Trends in land use	57
	2. Trends in crop production.....	59
	3. Trends in inequality.....	61
	4. Trends in land tenure.....	62
	5. Trends in labor.....	62
	B. Policy discussion	63
	1. Sustainable land use and land expansion.....	63
	2. Increased land security.....	64
	3. Increased job security for agricultural employees.....	65
	4. Increased temporary employment and lack of remunerated job opportunities in other rural sectors.....	65
	Bibliography.....	67
	Annexes	71
	Annex 1: Complementary tables to text.....	72
	Annex 2: Identifying different types of labor.....	84
	Annex 3: Glossary.....	86
	Natural Resources and Development Series: issues published.....	89

Tables

Table II.1	Nicaragua: distribution of total agricultural land by uses, 2001 and 2011.....	22
Table II.2	Nicaragua: distribution of total agricultural land in regions by uses, 2001 and 2011.....	22
Table II.3	Nicaragua: area and contribution to the total cultivated land of main crops, 2001 and 2011.....	24
Table II.4	Nicaragua: indicators of farm size distribution, 2001 and 2011.....	25
Table II.5	Nicaragua: median farm size (hectares), 2001 and 2011.....	27
Table II.6	Nicaragua: contribution (%) of the different farm sizes to absolute changes in area, 2001 and 2011.....	28
Table II.7	Pacific region: top five crops, by farm size, 2001 and 2011.....	31
Table II.8	Central region: top five crops, by farm size, 2001 and 2011	32
Table II.9	Atlantic region: top five crops, by farm size, 2001 and 2011.....	33
Table II.10	Nicaragua: national and regional crop distribution comparison, 2001 and 2011.....	34

Table II.11	Nicaragua: classification of farmers according to land tenure by region, 2001 and 2011.....	35
Table II.12	Nicaragua: classification of farmers according to land tenure by size, 2001 and 2011.....	36
Table II.13	Nicaragua: labor indicators by farm size, 2001 and 2011	37
Table II.14	Nicaragua: ratio labor units to hectares by farm size, 2001 and 2011.....	38
Table II.15	Nicaragua: use of agricultural machinery and tools, average ratio units to hectares and average area of farms using the items, for selected items, 2001 and 2011.....	38
Table II.16	Nicaragua: use of agricultural machinery and tools, percentage of farms using items, for selected items with positive change in the percentage, 2001 and 2011.....	39
Table II.17	Nicaragua: use of agricultural machinery and tools, average ratio units to hectares and average area of farms using the items, for selected items, and two farm size categories, 2001 and 2011.....	40
Table II.18	Nicaragua: percentage of farms using agricultural machinery and tools, for selected items, and two farm size categories, 2001 and 2011.....	41
Table III.1	Peru: distribution of total agricultural land by uses, 1994 and 2012	44
Table III.2	Peru: distribution of total agricultural land in regions by uses, 1994 and 2012.....	45
Table III.3	Peru: area and contribution to the total cultivated land (%) of main crops, 1994-2012.....	46
Table III.4	Peru: indicators of farm size distribution, 1994 and 2012	47
Table III.5	Peru: absolute changes in farms and area by farm size, between 1994 and 2012.....	47
Table III.6	Peru: median farm size, 1994 and 2012.....	48
Table III.7	Peru: description of national and regional distribution of farms according to land tenure 1994 and 2012	49
Table III.8	Peru: distribution of farms according to land tenure by size, 1994 and 2012.....	49
Table III.9	Peru: labor indicators by farm size, 1994 and 2012	50
Table III.10	Peru: ratio labor units to hectares, by farm size, 1994 and 2012.....	51
Table III.11	Peru: shares of farms owning equipment and average units per hectare by item, 1994 and 2012.....	52
Table III.12	Peru: regional shares of farms owning equipment and average units per hectare by item, 1994 and 2012	53
Table III.13	Peru: shares of farms owning equipment and average units per hectare by farm size and item 1994 and 2012	54
Table III.14	Peru: shares of farms using tractors by farm size, 1994 and 2012	55
Table IV.1	Nicaragua and Peru: summary of trends in land use categories, by region.....	58
Table IV.2	Nicaragua and Peru: changes in crop production, by region and farm sizes	59
Table IV.3	Nicaragua: indicators of land concentration, 2001 and 2011.....	61
Table IV.4	Peru: indicators of land concentration, 1994 and 2012.....	62
Table IV.5	Nicaragua and Peru: summary of trends in land tenure, by region.....	62
Table IV.6	Nicaragua and Peru: summary of trends in labor, by farm size.....	63

Table A1.1	Nicaragua: distribution of Departments by region	72
Table A1.2	Peru: Distribution of Provinces by region	72
Table A1.3	Nicaragua and Perú: total Value Added and Economic Active Population, 1990-2016.....	73
Table A1.4	Nicaragua: distribution of total agricultural land in regions by uses, 2001 and 2011.....	74
Table A1.5	Peru: distribution of total agricultural land in regions by uses, 1994 and 2012.....	74
Table A1.6	Nicaragua: average units per hectare, number of users, shares of farms owning equipment, total items used and average area, by item, 2001 and 2011.....	75
Table A1.7	Pacific region: average units per hectare, number of users, shares of farms owning equipment, total items used and average area, by item, 2001 and 2011.....	76
Table A1.8	Central region: average units per hectare, number of users, shares of farms owning equipment, total items used and average area, by item, 2001 and 2011.....	77
Table A1.9	Atlantic region: average units per hectare, number of users, shares of farms owning equipment, total items used and average area, by item, 2001 and 2011.....	78
Table A1.10	Nicaragua: average units per hectare, number of users, shares of farms owning equipment, total items used and average area, by farm size category and item, 2001 and 2011.....	79
Table A2.1	Spanish version of the questions about labor in every census and country.....	85
Table A3.1	Definition of land use categories.....	86
Table A3.2	Names employed for machinery and tools.....	88
Figures		
Figure I.1	Nicaragua and Peru: agricultural value added as percentage of the total value added of the economy, 1991-2016	19
Figure II.1	Nicaragua: absolute changes (thousands of ha) in land uses, by Region, 2001 and 2011.....	23
