DEPARTMENT OF ECONOMIC AND SOCIAL AFFAIRS

The Department of Economic and Social Affairs of the United Nations Secretariat is a vital interface between global policies in the economic, social and environmental spheres and national action. The Department works in three main interlinked areas: (i) it compiles, generates and analyses a wide range of economic, social and environmental data and information on which States Members of the United Nations draw to review common problems and to take stock of policy options; (ii) it facilitates the negotiations of Member States in many intergovernmental bodies on joint courses of action to address ongoing or emerging global challenges; and (iii) it advises interested Governments on the ways and means of translating policy frameworks developed in United Nations conferences and summits into programmes at the country level and, through technical assistance, helps build national capacities.

NOTE

Symbols of United Nations documents are composed of capital letters combined with figures.

The designations employed and the presentation of material in this publication do not imply the expression of any opinion whatsoever on the part of the Secretariat of the United Nations concerning the legal status of any country, territory, city or area, or of its authorities, or concerning the delimitation of its frontiers or boundaries.

Where the designation “country or area” appears in this publication, it covers countries, territories, cities or areas. In previous issues of this publication, where the designation “country” appears in the headings of tables, it should be interpreted to cover countries, territories, cities or areas.

In some tables, the designation “developed” economies is intended for statistical convenience and does not necessarily express a judgement about the stage reached by a particular country or area in the development process.

PREFACE

The *2012 International Trade Statistics Yearbook* (2012 ITSY) is the sixty-first edition of this yearbook. Its objective is to inform about the detailed merchandise imports and exports of individual countries (areas) by commodity and partner country (volume I), the world trade in individual commodities (3-digit SITC groups) (volume II) and total world trade - up to the year 2012. The two volumes are prepared at different points in time during 2013: *Volume I - Trade by Country* is made electronically available in June and *Volume II - Trade by Commodity* in December, as the preparation of the tables in Volume II requires additional country data which, normally, become available later in the year.

Beginning with the 2008 edition the yearbook is published in a redesigned format in respect to the presentation of data for individual countries and commodities to provide a more analytical and condensed view of the international merchandise trade data. The detailed information about the trade of particular countries by commodity and partner (values and quantities) contained in the tables and graphs for individual countries in Volume I and commodities in Volume II are taken from the publicly available database UN Comtrade (<http://comtrade.un.org/>). Users are advised to visit UN Comtrade for any additional and more current information as it is continuously updated.

The International Trade Statistics Yearbook is prepared by the International Merchandise Trade Statistics Section, Trade Statistics Branch of the Statistics Division, Department of Economic and Social Affairs of the United Nations Secretariat. Under the general supervision of the Chief of Branch, Ronald Jansen, the programme manager is Markie Muryawan and the chief editor is Marjorie Imperial-Damaso, assisted by Melissa Paca. Bekuretsion Amdemariam has the leading role in the processing of the data for UN Comtrade. However, all staff of the section are involved in the generation of the data and the yearbook. Markie Muryawan, Salomon Cameo and Luis Gonzalez Morales developed the software which is maintained by Salomon Cameo. Matthias Reister and Nelnan Koumtingue made very substantial contributions to this redesigned yearbook as its first programme manager and first chief editor, respectively. Comments on the present yearbook are welcome. They may be sent to comtrade@un.org or to United Nations Statistics Division, International Merchandise Trade Statistics Section, New York, New York 10017, USA.

TABLE OF CONTENTS

	Page
Introduction	xi
The new yearbook	xi
Concepts and definitions of International Merchandise Trade Statistics.....	xi
Sources and Presentation	xiv
Description of world trade tables of part 1 (Tables A to K).....	xx
Description of commodity tables and graphs of part 2.....	xxiii
Abbreviations and Explanation of symbols	xxv
Disclaimer, UN Comtrade Subscription information, Contact.....	xxvi
 Part 1 World Trade Tables.....	 1
Total imports and exports by regions and countries or areas in U.S. dollars (Table A)	3
Total imports and exports by countries or areas in national currency (Table B).....	21
