# COVID-19: The Great Lockdown and its Impact on Small Business

TRADE IMPACT FOR GOOD

The International Trade Centre supports small business through the COVID-19 crisis. For more information, see http://www.intracen.org/covid19/

This publication is a contribution to the annual Micro, Small and Medium-Sized Enterprises Day campaign.

MSME Day takes place each year on 27 June.

The publication findings are presented in a global virtual debate that can be found at: www.intracen.org

## COVID-19: The Great Lockdown and its Impact on Small Business

The *SME Competitiveness Outlook 2020* analyses the impact of the pandemic on small firms, international supply chains and trade. It provides projections and a 15-point action plan for businesses, policymakers and business support organizations to weather the crisis – and gear up for a 'new normal' that needs to be resilient, digital, inclusive and sustainable.

The report combines analysis of the impact of COVID-19 on firms based on a large-scale global survey, with case studies and a thought leader viewpoint. The projected drop in supply chain trade is evaluated by region, and in 85 country profiles.

TECHNICAL ANNEX	
ENDNOTES AND REFERENCES	

### Figures

1	Chinese exports decline by 21% in February 2020 from a year earlier	
2	Exports decline 9% from locked-down United States, EU and China	5
3	Asia forecast to have most job losses in travel and tourism	6
4	Travel bans in more than 100 countries threaten tourism	7
5	US dollar appreciates against emerging market currencies in early 2020	7
6	COVID-19 disrupts international supply chains	8
7	Slump forecast in exports of manufacturing inputs for supply chains	9
8	Percentage reductions in manufacturing exports to the EU, China and United States	10
9	Countries imposing trade measures rose rapidly in March 2020	12
10	Countries are restricting exports related to COVID-19	13
11	Most medical and surgical gear imports are banned or restricted	15
12	Developed countries more likely to cut tariffs on medical supplies	
13	Millions of masks, gloves and gowns are needed	
14	Concentrated exports of virus-related goods and protective items	17
15	Developing countries supply many inputs for PPE and disinfectants	17
16	Africa and the Pacific could rely on local supply for disinfectant inputs	

17	Just a few countries export most of the world's latex and surgical gloves	
18	Developing countries are among the top suppliers of synthetic nonwoven fabrics	
19	Recession will weigh on air travel recovery	
20	COVID-19 reduced access to logistics services in all sectors	
21	Small business recovery cycle	
22	COVID-19 reduced access to logistics services in all sectors	
23	Smaller companies see larger impact from COVID-19	
24	Sectoral impact of COVID-19 varies	
25	Women-led firms are in industries most affected by COVID-19	
26	Women-led firms: More affected	
27	SMEs and youth-led firms are at higher risk of permanently shutting down in coming months	
28	Richer nations spend more on recovery	
29	Most firms favour financial programmes and tax waivers	
30	Small firms are more likely to opt for agile strategies	
31	Smaller firms struggle to access information and benefits from government	
32	Most firms temporarily reduced employment to cope with crisis	
33	Country profile example	51

### Table
