This volume contains seven papers that were presented at a workshop on management of capital flows, organized jointly by the UNCTAD secretariat and the Government of Egypt in Cairo on 20–21 March 2001. The authors of these papers, whom we wish to thank for their time and efforts, extensively revised and updated their research papers in the light of the discussions held at the workshop.

We would like to express our appreciation to the Government of Egypt for hosting this event and to the Government of Japan for its financial assistance through project RAF/97/A28, without which the workshop and the research presented in this volume would not have been possible.

Active participation in the workshop by officials from Egypt and the following African countries enriched the discussions: Algeria, Cameroon, Côte d'Ivoire, Ethiopia, Gabon, Ghana, Kenya, the Libyan Arab Jamahiriya, Morocco, Mozambique, Nigeria, Senegal, South Africa, Tunisia, Uganda, the United Republic of Tanzania, Zambia and Zimbabwe. Contributions to the discussions at the workshop were also made by officials from the United Nations Development Programme (UNDP), the Economic Commission for Africa (ECA) and the International Monetary Fund (IMF).

This project was directed by Yilmaz Akyüz, Director, Division on Globalization and Development Strategies, UNCTAD, and managed by Shigehisa C. Kasahara. Kamran Kousari, UNCTAD's Special Coordinator for Africa, was closely involved in all aspects of the project. Heather Wicks provided logistical and secretarial support in preparation for, and organization of, the workshop. Praveen Bhalla edited the final text and Petra Hoffmann was responsible for its layout and overall presentation. The cover was designed by Diego Oyarzun-Reyes.
