NOTE

The handbook was prepared by the Trade Negotiations and Commercial Diplomacy Branch, Division on International Trade and Commodities, UNCTAD.

This handbook provides a general explanation of the Generalized System of Preferences (GSP) of Japan to allow officials and users responsible or involved in GSP issues to gain a better understanding of the scheme.

Products are described in terms of the Harmonized Commodity Description and Coding System, commonly known as the Harmonized System, upon which the Japanese customs acts are based. However, matters involving technical interpretation of the GSP will be determined in accordance with the provisions of the relevant Japanese customs acts and regulations.

The handbook is meant to serve as general guide to the GSP of Japan and not intended to provide legal advice. For further inquiries, please contact:
