ACKNOWLEDGEMENTS

The *Review of Maritime Transport 2020* was prepared by UNCTAD under the overall guidance of Shamika N. Sirimanne, Director of the Division on Technology and Logistics of UNCTAD, and under the coordination of Jan Hoffmann, Chief of the Trade Logistics Branch. Administrative and editorial support was provided by Wendy Juan. Regina Asariotis, Mark Assaf, Gonzalo Ayala, Ahmed Ayoub, Hassiba Benamara, Dominique Chantrel, Jan Hoffmann, Alexandre Larouche-Maltais, Anila Premti, Luisa Rodríguez, Sijia Sun and Frida Youssef were contributing authors.

The *Review* was edited by the Intergovernmental Support Service of UNCTAD. Magali Studer designed the publication, and Carlos Bragunde López did the formatting.

Comments and inputs from the following reviewers are gratefully acknowledged: Hashim Abbas, Gail Bradford, Pierre Cariou, Trevor Crowe, Neil Davidson, Juan Manuel Díez Orejas, Goran Dominioni, Azhar Jaimurzina Ducrest, Mahin Faghfour, Fredrik Haag, Morten Ingebrigtsen, Eleni Kontou, Andy Lane, Mikael Lind, Amparo Mestre Alcover, James Milne, Turloch Mooney, Theo Notteboom, Athanasios A. Pallis, Ricardo Sánchez, Alastair Stevenson, Stelios Stratidakis, Antonella Teodoro and Patrick Verhoeven. Experts from the International Chamber of Shipping contributed to chapter 2.

Thanks are due to the following experts for their contributions to the case studies and testimonials included in chapter 4: Alison Newell, Member of the Chartered Institute of Ecology and Environmental Management, Chartered Environmentalist and Member of the management team of Sailing for Sustainability (Fiji), and Peter Nuttall, Scientific and Technical Adviser, Micronesian Centre for Sustainable Transport. Contributions from the Permanent Secretariat of the Northern Corridor Transit and Transport Coordination Authority; Port Authority of Valencia; Mediterranean Shipping Company; and Panama Canal Authority, in particular Ilya Espino de Marotta, Deputy Administrator, and Silvia de Marucci, Manager Market Analysis and Customer Relations, are also gratefully acknowledged.

Comments received from other UNCTAD divisions as part of the internal peer review process, as well as comments from the Office of the Secretary-General, are acknowledged with appreciation.

Thanks are also due to Vladislav Shuvalov for reviewing the publication in full.

TABLE OF CONTENTS

Acknowledgements.....	iii
Abbreviations.....	viii
Note.....	ix
Executive summary	xi
1. International maritime trade and port traffic	1
A. Volume of international maritime trade and port traffic	3
B. Maritime trade in the era of pandemic	19
C. Outlook	24
D. Summary and policy considerations	28
2. Maritime transport services and infrastructure supply.....	35
A. World fleet and maritime workforce	37
B. Shipping companies, earnings and revenues and operations during and beyond the pandemic crisis	49
C. Port services and infrastructure supply	58
D. Conclusions and policy considerations.....	62
3. Performance indicators.....	67
A. Port calls and turnaround times.....	69
B. Container shipping: Liner shipping connectivity	75
C. Container shipping: Port performance.....	83
D. Port performance: Lessons learned from the TrainForTrade Port Management Programme of UNCTAD	88
E. Shipping: Emissions of the world fleet	93
F. Summary and policy considerations.....	97
4. The coronavirus disease 2019 pandemic: lessons learned from first-hand experiences.....	101
A. Invited reflections on the coronavirus disease 2019 pandemic in maritime transport and hinterland connections	102
B. Experience of small island developing States: Small island developing States in the Pacific.....	104
C. Experience of an authority coordinating a transit and transport corridor: Northern Corridor Transit and Transport Coordination Authority, East Africa.....	107
D. Experience of an authority managing an international maritime passage: Panama Canal Authority	109
E. Experience of a port authority: Port Authority of Valencia.....	112
F. Experience of a global shipping company: Mediterranean Shipping Company.....	113
5. Legal issues and regulatory developments.....	117
A. Technological developments and emerging issues in the maritime industry.....	119
B. Regulatory developments relating to international shipping, climate change and other environmental issues	125
C. Other legal and regulatory developments affecting transportation	132
D. Status of conventions.....	132
E. COVID-19 legal and regulatory challenges for international shipping and collaborative action in response to the crisis	133
F. Summary and policy considerations.....	138

Tables

1.1	Development of international maritime trade, selected years	4
1.2	International maritime trade in 2018–2019	5
1.3	World economic growth, 2018–2021	6
1.4	Volumes of exported and imported goods, selected group of countries, 2018–2020	6
1.5	Tanker trade, 2018–2019	11
1.6	Major producers and consumers of oil and natural gas, 2019	11
1.7	Dry bulk trade, 2018–2019	12
1.8	Major dry bulk commodities and steel: Producers, users, exporters and importers, 2019	12
1.9	Containerized trade on mainline East–West routes and other routes, 2016–2020	14
1.10	Containerized trade on major East–West trade routes, 2014–2020	15
1.11	World container port throughput by region, 2018–2019	16
1.12	International maritime trade development forecasts, 2020–2021	24
2.1	World fleet by principal vessel type, 2019–2020	37
2.2	Age distribution of world merchant fleet by vessel type, 2019–2020	39
2.3	Ownership of world fleet, ranked by carrying capacity in dead-weight tons, 2020	41
2.4	Top 25 ship-owning economies, as at 1 January 2020	42
2.5	Leading flags of registration by dead-weight tonnage, 2020	44
2.6	Leading flags of registration, ranked by value of principal vessel type, 2020	45
2.7	Deliveries of newbuildings by major vessel types and countries of construction, 2019	45
2.8	Reported tonnage sold for ship recycling by major vessel type and country of ship recycling, 2019	46
2.9	Container freight market rates, 2010–2020	51
2.10	Crude oil and product tanker spot rates and time-charter equivalent earnings	53
2.11	Top 21 global terminal operators, throughput and capacity, 2019	59
2.12	Share of integrated port terminals in container volumes handled, selected countries of Latin America and the Caribbean	60
3.1	Recorded port calls and time in port, 2018 and 2019	70
3.2	Port calls and time in port by vessel type, 2019	71
3.3	Port calls and median time spent in port by container ships: Top 25 countries, 2019	71
3.4	Port calls and median time spent in port, general cargo ships, 2019	73
3.5	Correlation between components of the liner shipping connectivity index and port traffic	81
3.6	Weighted average port call hours in top 25 economies, 2019	85
3.7	Weighted average port call hours, top and bottom 10 countries or territories	85
3.8	Port performance scorecard indicators, 2015–2019	89
3.9	Average annual throughput volume, 2015–2019	90
4.1	Examples of surcharges and shipping costs	106
4.2	Number of oceangoing vessel transits through the Panama Canal	111
5.1	Contracting States Parties to selected international conventions on maritime transport, as at 31 July 2020	133

Figures

1.1	Development of international maritime trade and global output, 2006–2020	3
1.2	Participation of developing economies in international maritime trade, selected years	7
1.3	International maritime trade, by region, 2019	7
1.4	Development of international maritime trade by cargo type, selected years	8
1.5	Development of international maritime trade by cargo type, selected years	9
1.6	International maritime trade in cargo ton-miles, 2000–2020	10
1.7	International maritime trade in cargo ton-miles, 1999–2020	10
1.8	Global containerized trade, 1996–2020	13
1.9	Market share of global containerized trade by route, 2019	14
1.10	Estimated world container port throughput by region, 2019	17
1.11	Leading 20 global container ports, 2018–2019	18
1.12	Varied forecasts of gross domestic product growth for 2020	21
1.13	Containerized trade growth on main East–West routes	25
1.14	World port-handling forecast, 2019–2021	27
2.1	Growth of world fleet by principal vessel type, 2014–2020	38
2.2	Average vessel size and age distribution, selected vessel types, 2020	40
2.3	Top 20 ship-owning economies in terms of value and carrying capacity of the global fleet, 2020	43
2.4	World tonnage on order, 2000–2020	46
2.5	Reported tonnage sold for ship recycling by major vessel type and country of ship recycling, 2017–2019	47
2.6	New ConTex index, 2015–2020	52
2.7	Baltic Exchange dry index, 2017–2020	55
2.8	One-year time-charter rates for bulk carriers, 2015–2020	55
2.9	Top 10 deep-sea container shipping lines, ranked by deployed capacity and market share, May 2020	56
3.1	Port calls, all vessel types, 2019	70
3.2	Port calls by container ships, 2019	72
3.3	Global change in the number of port calls, first and second quarters of 2020 compared with the first and second quarters of 2019, selected vessel types	74
3.4	Number of weekly container ship port calls worldwide, moving four-week average, 2019 and 2020	74
3.5	Liner shipping connectivity index of top 10 economies, first quarter 2006–second quarter 2020	76
3.6	Liner shipping connectivity index of selected small island developing States, first quarter 2006–second quarter 2020	77
3.7	Liner shipping connectivity index of top 10 ports, first quarter 2006–second quarter 2020	78
3.8	Liner shipping connectivity index of leading regional ports, first quarter 2006–second quarter 2020	78
3.9	Liner shipping connectivity index components, first quarter 2006–second quarter 2020, index of averages per country	79
3.10	Quarterly trends in fleet deployment, first quarter 2019–second quarter 2020	79
3.11	Quarterly trends in fleet deployment, selected countries, 2019–2020	80
3.12	Liner shipping connectivity index and port traffic, 2017	81
3.13	Number of seaports with regular container vessel calls, first quarter 2006–second quarter 2020	82
3.14	Global liner shipping network, second quarter 2020	83
3.15	Country averages of port time per ship and call size, 2019	86
3.16	Minutes in port per container move and average call size, 2019	86
3.17	Minutes in port per container move and number of port calls per country, 2019	87
3.18	Minutes in port per container move and average vessel size, 2019	87
3.19	Revenue mix of ports by region, 2015–2019	90

3.20	Earnings before interest, taxes, depreciation and amortization as a proportion of revenue, 2015–2019	90
3.21	Labour costs as a proportion of revenue, 2015–2019.....	91
3.22	Average wages per employee, 2015–2019.....	91
3.23	Female participation rate in the port workforce, 2015–2019.....	91
3.24	Share of vessel arrivals in select member port of the TrainForTrade network, 2015–2019	92
3.25	Average cargo per arrival or departure, 2015–2019	92
3.26	Maximum 20-foot equivalent unit dwell time, 2015–2019	92
3.27	Average box-handling rate, 2015–2019	92
3.28	Annual carbon-dioxide emissions per vessel by vessel type, 2019.....	94
3.29	Comparison of dead-weight tonnage of respective fleet and carbon-dioxide emissions from bulk carriers, container ships and tankers, 2011–2019	94
3.30	Annual carbon-dioxide emissions per vessel by vessel type, 2011–2019	95
3.31	Annual carbon-dioxide emissions per vessel by flag of registration, 2019.....	96
4.1	Port of Mombasa: Performance indicators, 2020.....	108

Boxes

1.1	Blind spots in risk assessment and management.....	20
2.1	Reducing carbon dioxide emissions: The case of the Pacific islands.....	40
2.2	Shipbuilding at a crossroads in the European Union	48
2.3	Promoting diversity and inclusion in the maritime sector	50
2.4	Policies to support shipping for a sustainable recovery beyond the pandemic crisis.....	57
2.5	The changing landscape of international production, the COVID-19 pandemic, resilience-building and maritime transport fleet deployment.....	57
2.6	Challenges faced by ports in India as a result of the COVID-19 pandemic	61
2.7	Measures to protect staff working in port communities and to ensure continuity of port operations: Generic guidelines	61

ABBREVIATIONS
