UNCTAD/DTL/STICT/2017/10

NOTE

Within the UNCTAD Division on Technology and Logistics, the ICT Analysis Section carries out policy-oriented analytical work on the development implications of information and communication technologies (ICTs) and e-commerce. It is responsible for the preparation of the Information Economy Report (IER) as well as thematic studies on ICT for Development.

The ICT Analysis Section promotes international dialogue on issues related to ICTs for development and contributes to building developing countries' capacities to measure the information economy and to design and implement relevant policies and legal frameworks. It also monitors the global state of e-commerce legislation (unctad.org/cyberlawtracker). Since 2016, the ICT Analysis Section has coordinated a new multi-stakeholders' initiative entitled eTrade for all (etradeforall.org), which aims to improve the ability of developing countries, particularly least developed countries (LDCs), to use and benefit from e-commerce.

Reference to companies and their activities should not be construed as an endorsement by UNCTAD of those companies or their activities.

The following symbols have been used in the tables:

Two dots (..) indicate that data are not available or are not separately reported. Rows in tables have been omitted in those cases where no data are available for any of the elements in the row;

A dash (-) indicates that the item is equal to zero or its value is negligible;

Reference to "dollars" (USD) means United States of America dollars, unless otherwise indicated;

Details and percentages in tables do not necessarily add up to the totals because of rounding.

PREFACE

The eTrade for all Initiative, launched at the fourteenth Ministerial Conference of UNCTAD in July 2016, is a practical example of how to harness the digital economy in support of the 2030 Agenda for Sustainable Development, notably Sustainable Development Goals (SDGs) 5, 8, 9, and 17. The initiative seeks to raise awareness, enhance synergies, and increase the scale of existing and new efforts by the development community to strengthen the ability of developing countries to engage in and benefit from e-commerce by addressing seven relevant policy areas:

- E-commerce readiness assessment and strategy formulation
- ICT infrastructure and services
- Trade logistics and trade facilitation
- Payment solutions
- Legal and regulatory frameworks
- E-commerce skills development
- Access to financing

As part of the initiative, demand-driven assessments are envisaged to provide a basic analysis of the current e-commerce situation in the countries concerned, and to identify opportunities and barriers. The resulting reports will serve as a valuable input to these countries' involvement in various discussions related to e-commerce and digital trade, the new UNCTAD Intergovernmental Group of Experts on E-commerce and the Digital Economy.

It may furthermore help LDCs to identify areas in which they could benefit from assistance by partners of eTrade for all.

The Samoa Rapid e-Trade Readiness Assessment is the third such assessment conducted by UNCTAD. It has benefited from excellent collaboration with the Enhanced Integrated Framework (EIF), which funded the report. It coincides with the Samoa Government's preparations for the arrival of the much-awaited Tui-Samoa Submarine Cable, connecting Samoa to Fiji and the rest of the world to boost accessibility and enhancing fast connectivity to reliable and affordable Internet services across the region.

With the EIF and other eTrade for all partners, UNCTAD is committed to continue supporting Samoa in its resolve to harness the potential of e-commerce for its development.

Shamika N. Sirimanne

Director, Division on Technology and Logistics, UNCTAD

ACKNOWLEDGEMENTS

This eTrade readiness assessment for Samoa was prepared by Sven Callebaut, UNCTAD Consultant, under the supervision of Cécile Barayre, Economic Affairs Officer, Marian Pletosu, UNCTAD Consultant, and the overall guidance of Torbjörn Fredriksson, Chief, ICT Analysis Section, Science, Technology and ICT Branch, Division on Technology and Logistics, UNCTAD.

In Samoa, the consultant wishes to express his profound recognition of the Honourable Tuifa'asisina Misa Lisati Leleisiuao Palemene, Associate Minister for Commerce, Industry and Labour, Nella Tavita Levy, Assistant CEO, and Fiona Lene, Trade Officer, of the Trade Division, Ministry of Foreign Affairs and Trade (MFAT) for their guidance and kind advice before, during, and after the eTrade readiness assessment in-country mission. The consultant is also grateful to the Honourable Afamasaga Lepuiai Rico Tupai, Minister of Communication and Information Technology for his and his colleagues' precious time and inputs to the development of this report. The support provided by Raewynn Teuila Manuleleua throughout the in-country mission was very much appreciated.

In Geneva, the assessment was made possible thanks to the timely support of Ambassador Mere Falemaka, Permanent Representative of the Pacific Islands Forum to the WTO in Geneva, the Executive Secretariat of the Enhanced Integrated Framework (EIF) and Clara Mathieu Gotch, Programme Officer, UNOPS office in Geneva, acting as the EIF Trust Fund Manager.

The UNCTAD/WTO/PIFS Regional Workshop on E-commerce that took place in Denarau, Fiji on 20-22 June 2017 generated up-to-date data and information on adoption of e-commerce in the Pacific that were used in this report.

The assessment benefited from inputs provided by the 68 Samoan institutions from both the public and private sectors, through the eTrade for all online surveys and the interviews in Apia, Samoa. The UNCTAD team would like to thank all stakeholders who willingly gave their time and thoughtful consideration when participating in the focus group discussions in MFAT facilities in Apia.

Desktop publishing was prepared by Nathalie Loriot and the cover was prepared by Nadège Hadjémian. The document was externally edited by Nancy Biersteker.

Funding for this report was provided by the Enhanced Integrated Framework (EIF), a core partner of the eTrade for all initiative.
