TRADE AND GENDER

VOLUME 2: EMPIRICAL ANALYSIS OF THE TRADE AND GENDER LINKS

VIRTUAL INSTITUTE TEACHING MATERIAL ON
TRADE AND GENDER

VOLUME 2

Empirical Analysis of the Trade and Gender Links

UNITED NATIONS

NEW YORK AND GENEVA, 2014

NOTE

The views expressed in this volume are those of the author and do not necessarily reflect those of the United Nations.

The designations employed and the presentation of the material do not imply the expression of any opinion on the part of the United Nations concerning the legal status of any country, territory, city or area, or of its authorities, or concerning the delimitation of its frontiers or boundaries.

Material in this publication may be freely quoted or reprinted, but acknowledgement of the UNCTAD Virtual Institute is requested, together with a reference to the document number. A copy of the publication containing the quotation or reprint should be sent to the UNCTAD Virtual Institute, Division on Globalization and Development Strategies, Palais des Nations, 1211 Geneva 10, Switzerland.

This publication has been edited externally.

The UNCTAD Virtual Institute is a capacity-building and networking programme that aims to strengthen teaching and research of international trade and development issues at academic institutions in developing countries and countries with economies in transition, and to foster links between research and policymaking.

For further information about the UNCTAD Virtual Institute, please contact:

Ms. Vlasta Macku
Chief, Virtual Institute
Division on Globalization and Development Strategies
E-mail: vlasta.macku@unctad.org
Website: <http://vi.unctad.org>

The Trade, Gender and Development Section carries out UNCTAD's work programme on trade and gender with the aim of making trade policy a force for inclusive development.

For further information about the UNCTAD work programme on trade, gender and development, please contact:

Ms. Simonetta Zarrilli
Chief, Trade, Gender and Development Section
Division on International Trade in Goods and Services, and Commodities

ACKNOWLEDGEMENTS

The teaching material on Trade and Gender was jointly developed by the UNCTAD Virtual Institute, under the supervision of Vlasta Macku, and the Trade, Gender and Development Section of UNCTAD's Division on International Trade in Goods and Services, and Commodities, under the supervision of Simonetta Zarrilli.

The second volume of the material, titled "The empirical analysis of the trade and gender links", was written by Nicolas Depetris Chauvin from the University of Buenos Aires, Argentina. The volume was reviewed by an UNCTAD team including Simonetta Zarrilli, Irene Musselli, Elizabeth Jane Casabianca, Rohan Gudibande, Mariangela Linoci, and Sheba Tejani. Cristian Ugarte, Vlasta Macku, and David Zavaleta from the UNCTAD Virtual Institute provided additional comments. Design and layout were created by Hadrien Gliozzo, and the publication process was managed by Nora Circosta.

The financial contribution of the Government of Finland is gratefully acknowledged

NOTE	ii
ACKNOWLEDGEMENTS	iii
LIST OF BOXES	vi
LIST OF FIGURES	vi
LIST OF TABLES	vi
LIST OF ABBREVIATIONS	vii

1 MODULE

<i>Introduction to empirical analysis</i>	1
1 Introduction	2
2 Overview of empirical methodologies	2
2.1 Microeconomic approach	3
2.2 Macroeconomic approach	5
2.3 Sectoral approach	6
3 Data sources	7
3.1 Trade data	7
3.2 Trade models	8
3.3 Micro-level data	9
3.4 Macro-level data	11
4 The Stata statistical package	12
4.1 Online references to learn Stata	12
4.2 How to use Stata	13
5 Conclusions	17
REFERENCES	19

2 MODULE

<i>The microeconomic approach</i>	21
1 Introduction	22
2 Review of the literature	22
3 From trade policy to prices	24
4 From prices to welfare impact	25
5 Methodological approach: Non-parametric regressions	28
5.1 Basic idea of density estimations	28
5.2 Intuition behind non-parametric regressions	29
6 Hands-on application: UNCTAD (2011)	30
6.1 Context and overview	30
6.2 Data sources	31
6.3 Step-by-step explanation of how to do the estimations in Stata	31
6.4 Discussion of findings and limitations of the analysis	44
7 Conclusions	45
Annex A: Modelling price changes	46
A1 Econometric estimation within a model	46
A2 Global Simulation Model	47
A3 Computable general equilibrium model	49
Annex B: Formal derivation of the first-order welfare effect	51
REFERENCES	54
