# Final Report: Economic Impact of HIV/AIDS in Botswana

## Table of Contents

|   |           |
|---|-----------|
| <b>1. Introduction</b> .....  | <b>1</b>  |
| <b>2. Recent Development with respect to HIV/AIDS in Botswana</b> .....                                 | <b>4</b>  |
| <b>a. Policy and Institutional Developments</b> .....   | <b>4</b>  |
| i. Key institutional developments: .....  | 4         |
| ii. Key Policy Developments .....   | 4         |
| <b>b. HIV Prevalence Trends</b> .....   | <b>8</b>  |
| i. Sentinel Survey Results .....  | 8         |
| ii. BAIS II Results .....   | 12        |
| <b>3. The Potential Macroeconomic and Demographic Impacts of<br/>HIV/AIDS.</b> .....                    | <b>14</b> |
| <b>a. The Potential Macroeconomic Impact of AIDS</b> .....  | <b>14</b> |
| i. Impact on GDP and Average Incomes.....   | 14        |
| ii. Household Impacts .....   | 15        |
| iii. Firm-level impact .....  | 16        |
| iv. Fiscal Impact.....  | 17        |
| <b>b. The Potential Demographic Impact of AIDS</b> .....  | <b>18</b> |
| <b>4. Recent Work on the Macroeconomic Impact of HIV/AIDS in Botswana<br/>and Southern Africa</b> ..... | <b>24</b> |
| <b>a. Assessment of BIDPA Macroeconomic Forecasts</b> .....   | <b>24</b> |
| <b>b. Assessment of BIDPA and Other Macroeconomic Models</b> .....                                      | <b>27</b> |
| i. Subsequent work on the economic impact of HIV in Botswana.....                                       | 28        |
| ii. Other relevant studies .....  | 29        |
| iii. Macro-econometric models.....  | 31        |
| iv. Impact on Poverty and Inequality .....  | 31        |
| v. Implications for this study.....   | 32        |
| <b>5. Macroeconomic Impact of HIV/AIDS: Updated Aggregate Growth<br/>Model</b> .....                    | <b>34</b> |
| <b>a. Introduction</b> .....  | <b>34</b> |
| <b>b. The Macroeconomic Simulation Model</b> .....  | <b>34</b> |
| i. Model Structure.....   | 34        |
| ii. Assumptions in the model.....   | 36        |
| iii. Investment and Capital Stock .....   | 37        |
| <b>c. Impact of HIV/AIDS on the Labour Force</b> .....  | <b>38</b> |
| i. Size of the Labour Force .....   | 38        |
| ii. Labour Efficiency Units.....  | 39        |
| iii. Labour Force Skill Classification.....   | 40        |
| <b>d. Model Assumptions</b> .....   | <b>41</b> |
| i. Model Parameters .....   | 41        |

|           |  |           |
|-----------|--|-----------|
| ii.       | Parameter Value Assumptions.....                                   | 42        |
| <b>e.</b> | <b>Model Results.....</b>  | <b>44</b> |
| i.        | Base Case.....   | 44        |
| ii.       | Alternative Case .....   | 47        |
| iii.      | Summary of Macroeconomic Results .....                             | 52        |
| <b>6.</b> | <b>Firm-level Impact of HIV/AIDS.....</b>                          | <b>56</b> |
| <b>a.</b> | <b>General Results.....</b>  | <b>56</b> |
| i.        | Characteristics of sample .....                                    | 56        |
| ii.       | Impact on Workforce.....   | 57        |
| iii.      | Impact of HIV/AIDS on Output.....                                  | 58        |
| iv.       | Impact of HIV/AIDS on Productivity .....                           | 59        |
| v.        | Impact of HIV/AIDS on Investment.....                              | 60        |
| <b>b.</b> | <b>Response to HIV/AIDS by firms.....</b>                          | <b>61</b> |
| <b>c.</b> | <b>HIV/AIDS policies and programmes.....</b>                       | <b>65</b> |
| <b>d.</b> | <b>Summary of results .....</b>                                    | <b>65</b> |
| <b>7.</b> | <b>The Household Level Impacts of HIV/AIDS.....</b>                | <b>66</b> |
| <b>a.</b> | <b>Approach to the Analysis.....</b>                               | <b>66</b> |
| i.        | Preliminary Results from HIES 2002/03.....                         | 66        |
| ii.       | Simulating HIV/AIDS.....   | 67        |
| iii.      | Key Assumptions.....   | 67        |
| iv.       | Impacts of HIV/AIDS .....  | 68        |
| v.        | Indicators .....   | 69        |
| <b>b.</b> | <b>Results: Impact of HIV/AIDS on poverty.....</b>                 | <b>70</b> |
| i.        | Expenditure Effects .....  | 70        |
| ii.       | Income effects .....   | 71        |
| iii.      | Combined Expenditure and Income Effects.....                       | 72        |
| iv.       | Adding the impact of ART.....                                      | 73        |
| v.        | Impact of Labour Market Changes .....                              | 73        |
| vi.       | Impact of Orphan Allowance .....                                   | 74        |
| vii.      | Changes in Per Capita income and Income Dependency Ratio .....     | 75        |
| <b>c.</b> | <b>Sensitivity Analysis .....</b>                                  | <b>76</b> |
| i.        | Varying the expenditure assumption .....                           | 76        |
| <b>d.</b> | <b>Data Limitations .....</b>                                      | <b>76</b> |
| <b>e.</b> | <b>Conclusions .....</b>   | <b>77</b> |
| <b>f.</b> | <b>Policy Recommendations.....</b>                                 | <b>77</b> |
| i.        | Social Safety Nets.....  | 77        |
| ii.       | Basic Services for Human Capability Development.....               | 78        |
| <b>8.</b> | <b>Impact of HIV and AIDS on Government Spending .....</b>         | <b>79</b> |
| <b>a.</b> | <b>Introduction.....</b>   | <b>79</b> |
| <b>b.</b> | <b>Methodological Issues .....</b>                                 | <b>79</b> |
| <b>c.</b> | <b>Results .....</b>   | <b>81</b> |
| <b>d.</b> | <b>Fiscal Impact.....</b>  | <b>89</b> |
| <b>e.</b> | <b>Conclusions .....</b>   | <b>91</b> |
| <b>9.</b> | <b>CGE Modelling of the Macroeconomic Impact of HIV/AIDS .....</b> | <b>96</b> |
| <b>a.</b> | <b>Introduction.....</b>   | <b>96</b> |
| <b>b.</b> | <b>Description of the Model .....</b>                              | <b>96</b> |

|            |   |            |
|------------|---|------------|
| c.         | <b>CGE Model Results</b> .....                                | <b>99</b>  |
| i.         | The ‘With AIDS’ Scenario.....                                 | 99         |
| ii.        | The ‘Without AIDS’ Scenario.....                              | 103        |
| iii.       | The AIDS-with-ART Treatment Scenario.....                     | 106        |
| d.         | <b>Conclusions</b> .....                                      | <b>109</b> |
| <b>10.</b> | <b>Conclusions and Policy Recommendations</b> .....           | <b>111</b> |
| a.         | <b>Objectives of the Study</b> .....                          | <b>111</b> |
| b.         | <b>Evaluation of BIDPA (2000) Model and Projections</b> ..... | <b>111</b> |
| c.         | <b>Economic Projections to 2021</b> .....                     | <b>112</b> |
| d.         | <b>Impact on Government Budget</b> .....                      | <b>114</b> |
| e.         | <b>Micro-level Impact</b> .....                               | <b>116</b> |
| f.         | <b>Firm-level Strategies</b> .....                            | <b>116</b> |
| g.         | <b>Policy Options Open to Government</b> .....                | <b>117</b> |
| <b>11.</b> | <b>References &amp; Documents Consulted</b> .....             | <b>121</b> |
|            | <b>Appendix 1: Firms Questionnaire</b> .....                  | <b>124</b> |
|            | <b>Appendix 2: Persons Consulted</b> .....                    | <b>130</b> |

## List of Tables

|             |   |    |
|-------------|---|----|
| Table 1-1:  | Country-specific HIV and AIDS Estimates, Southern Africa, end 2005 .....                          | 1  |
| Table 4-1:  | Actual Outturn vs BIDPA (2000) Projections & Assumptions .....                                    | 25 |
| Table 4-2:  | Summary of Results – Economic Impact of HIV/AIDS .....  | 33 |
| Table 5-1:  | Classification of Workers into Skilled and Unskilled, by Occupation.....                          | 40 |
| Table 5-2:  | Labour Force Composition - HIES 1993/94 & 2002/03.....  | 41 |
| Table 5-3:  | Macroeconomic Model Results Summary .....   | 55 |
| Table 6-1:  | Summary of workers lost due to death, and illness and sick leave by skill. ....                   | 57 |
| Table 6-2:  | Workers lost through death and illness (as a percentage of total number of workers by sector). 58 |    |
| Table 6-3:  | Impact of HIV/AIDS on output by sector.....   | 59 |
| Table 6-4:  | Impact of HIV/AIDS on productivity by sector. ....  | 60 |
| Table 6-5:  | Impact of HIV/AIDS on Investment by sector. ....  | 61 |
| Table 6-6:  | Severity of HIV/AIDS Impact, by Sector.....   | 61 |
| Table 6-7:  | Response to HIV/AIDS in terms of Training.....  | 62 |
| Table 6-8:  | Response to HIV/AIDS in terms of Hiring .....   | 62 |
| Table 6-9:  | Response to HIV/AIDS in terms of Productivity .....   | 63 |
| Table 7-1:  | Poverty Rates by Region.....  | 67 |
| Table 7-2:  | Changes in Poverty Rates - Health Expenditure Effect .....  | 71 |
| Table 7-3:  | Changes in Poverty Rates – Health and Funeral Costs Effect.....                                   | 71 |
| Table 7-4:  | Changes in Poverty Rates – Income Loss due to Death .....   | 72 |
| Table 7-5:  | Changes in Poverty Rates – Income Loss with Worker Replacement .....                              | 72 |
| Table 7-6:  | Changes in Poverty Rates – Expenditure and Income Effects Combined.....                           | 73 |
| Table 7-7:  | Changes in Poverty Rates – Adding the effect of ART.....  | 73 |
| Table 7-8:  | Changes in Poverty Rates – Expected Wage Changes Included.....                                    | 74 |
| Table 7-9:  | Changes in Poverty Rates – Orphan Allowance Included .....  | 75 |
| Table 7-10: | Changes in dependency ratios and PCI with and without AIDS.....                                   | 76 |
| Table 7-11: | Sensitivity of poverty estimates to proportion of expenditure .....                               | 76 |

|   |     |
|---|-----|
| Table 8-1: Total Costs by Scenario (P million, 2004/05 prices).....                         | 89  |
| Table 8-2: All costs – ART Best estimate scenario (P mn; 2004/05 prices) .....              | 94  |
| Table 8-3: All costs – No ART scenario (P mn; 2004/05 prices).....                          | 95  |
| Table 9-1: Comparison of the Model Scenarios .....  | 100 |
| Table 9-2: Macroeconomic and Growth Results.....  | 101 |
| Table 9-3: Sectoral Growth Results.....   | 102 |
| Table 9-4: Poverty Results .....  | 102 |
| Table 9-5: Transmission Channels’ Contribution to Changes in Growth and Poverty Rates ..... | 105 |

## List of Figures

|  |    |
|--|----|
| Figure 2-1: ART Eligibility and Uptake (Public Sector) .....                 | 5  |
| Figure 2-2: ART deficit.....   | 6  |
| Figure 2-3: PMTCT uptake and testing .....                                   | 7  |
| Figure 2-4: VCT First-time testers.....                                      | 7  |
| Figure 2-5: HIV Prevalence Trends, 1992-2005 .....                           | 8  |
| Figure 2-6: HIV Prevalence by Age Cohort, 2003-5.....                        | 9  |
| Figure 2-7: HIV Prevalence by Education, 2003-5 .....                        | 9  |
| Figure 2-8: HIV Prevalence by Occupation, 2005 .....                         | 10 |
| Figure 2-9: Rural and Urban HIV prevalence rates.....                        | 11 |
| Figure 2-10: HIV Prevalence by Gender, 2002-5.....                           | 12 |
| Figure 2-11: HIV Prevalence – Comparison of BAIS & Sentinel Survey Data..... | 13 |
| Figure 3-1: Total Population.....  | 19 |
| Figure 3-2: Population Growth Projections .....                              | 20 |
| Figure 3-3: Adult and Population HIV Prevalence .....                        | 20 |
| Figure 3-4: AIDS-related deaths .....  | 21 |
| Figure 3-5: Number of ART Recipients .....                                   | 21 |
| Figure 3-6: Total HIV Infections.....  | 22 |
| Figure 3-7: No. of individuals with AIDS .....                               | 22 |
| Figure 3-8: Number of Orphans.....   | 23 |
| Figure 4-1: Growth of GDP in non-mining private sector.....                  | 26 |
| Figure 5-1: Labour Force Projections .....                                   | 39 |
| Figure 5-2: Base Case - Real GDP.....  | 44 |
| Figure 5-3: Base Case - Real GDP per Capita.....                             | 45 |
| Figure 5-4: Base Case - Real GDP Growth.....                                 | 45 |
| Figure 5-5: Base Case - Underemployment.....                                 | 46 |
| Figure 5-6: Alternative Case - Real GDP.....                                 | 49 |
| Figure 5-7: Alternative Case - Real GDP per capita .....                     | 50 |
| Figure 5-8: Alternative Case - Real GDP Growth .....                         | 50 |
| Figure 5-9: Alternative Case - Underemployment.....                          | 51 |
| Figure 5-10: Unit Labour Costs .....   | 52 |
| Figure 5-11: Contributions to GDP Growth (No AIDS vs. AIDS with ART).....    | 53 |
| Figure 6-1: Distribution of firms by sector .....                            | 56 |
| Figure 6-2: Distribution of Firms by Ownership .....                         | 56 |
| Figure 6-3: Impact on Output.....  | 58 |
| Figure 6-4: Impact on Productivity .....                                     | 58 |

|   |     |
|---|-----|
| Figure 6-5: Impact on Investment .....  | 60  |
| Figure 6-6: Firms' Training Response by Skill Level .....   | 63  |
| Figure 6-7: Firms' Hiring Response by Skill Level .....   | 64  |
| Figure 6-8: Proportion of Skilled Workers by Sector .....   | 64  |
| Figure 8-1: Projected numbers of adults and children on ART .....                                     | 81  |
| Figure 8-2: Projected Total Costs – ART “Best estimate” Scenario .....                                | 82  |
| Figure 8-3: Projected Total Costs – No ART Scenario .....   | 82  |
| Figure 8-4: Projected ART costs .....   | 83  |
| Figure 8-5: Projected Orphan Basket costs and comparison to actual expenditure .....                  | 84  |
| Figure 8-6: Projected Inpatient Bed needs for HIV and AIDS .....                                      | 85  |
| Figure 8-7: Projected numbers of AIDS deaths by scenario .....  | 86  |
| Figure 8-8: Projected costs of Home Based Care compared with actual and planned NSF expenditure ..... | 86  |
| Figure 8-9: Projected HIV and AIDS related outpatient visits (excluding ART consultations) ....       | 87  |
| Figure 8-10: Costs of prevention activities – actual, planned and projected (Pula) .....              | 87  |
| Figure 8-11: Total Costs by Scenario .....  | 88  |
| Figure 8-12: HIV/AIDS-related spending as percent of GDP and total Government spending ..             | 91  |
| Figure 9-1: Real GDP Growth Projections .....   | 101 |
| Figure 9-2: National Poverty Headcount .....  | 106 |
| Figure 9-3: Growth Incidence Curves for the AIDS-with-ART Scenario, 2003-21 .....                     | 109 |

## Abbreviations

|        |  |
|--------|--|
| ACHAP  | African Comprehensive HIV/AIDS Partnership               |
| ART    | Anti-Retroviral Therapy                                  |
| BAIS   | Botswana AIDS Impact Survey                              |
| BER    | Bureau for Economic Research                             |
| BHP    | Botswana Harvard Partnership                             |
| BHRIMS | Botswana HIV/AIDS Response Information Management System |
| BIDPA  | Botswana Institute for Development Policy Analysis       |
| BNPC   | Botswana National Productivity Centre                    |
| CDC    | Centres for Disease Control                              |
| CGE    | Computable General Equilibrium                           |
| HBC    | Home-Based Care  |
| HIES   | Household Income and Expenditure Survey                  |
| IEC    | Information Education and Communication                  |
| IFPRI  | International Food Policy Research Institute             |
| NAC    | National AIDS Council                                    |

## Acknowledgements

This report was prepared by a core team comprising Keith Jefferis (team leader, Econsult Botswana), Happy Siphambe (University of Botswana) and Anthony Kinghorn (HDA, Health & Development Africa). Significant inputs were also provided by James Thurlow (IFPRI) on the CGE modelling.

The study was funded by the United Nations Development Programme (UNDP), on behalf of the National AIDS Co-ordinating Agency (NACA) of the Government of Botswana.

The study team would like to thank members of the Reference Group, who provided comments on the study throughout, and specifically Ms Goitsewang Morekisi (Ministry of Finance and Development Planning, Chair of the Reference Group); Ms Marlene Nkete (Senior Research Officer, NACA); and Ms Lydia Matebesi (UNDP Botswana) for their support and assistance throughout. The team would also like to thank the wide range of people from the Government of Botswana and the private sector who provided information and assistance during the study. A full listing of persons consulted during the study is attached as an appendix to the report.
