

# Supporting Community Responses to HIV among Men who have Sex with Men

International NGO and Donor Consultation - Meeting Report

28 January 2008  
United Nations Building - Large Conference Room  
Beijing, China

UN Technical Working Group on MSM and HIV/AIDS  
Beijing, China

The 'International NGO and Donor Consultation on Men who have Sex with Men' was held on 28 January 2008 in the United Nations Building, Large Conference Room - Beijing, China.

The donor consultation report was supported by UNAIDS, Ford Foundation and the Chinese Association of STD/AIDS Prevention & Control, and was translated into Chinese by the Aibai Culture & Education Center ([www.aibai.cn](http://www.aibai.cn)).

UNDP works to prevent the spread of HIV and reduce its impact. As a trusted development partner, and co-sponsor of UNAIDS, it helps countries put HIV and AIDS at the centre of national development and poverty reduction strategies; build national capacity to mobilize all levels of government and civil society for a coordinated and effective response to the epidemic; and protect the rights of people living with AIDS, women, and vulnerable populations. Because HIV and AIDS is a world-wide problem, UNDP supports these national efforts by offering knowledge, resources and best practices from around the world.
