# Acknowledgement

This document was prepared using inputs from three national policy studies that were undertaken in Kenya, Uganda and Tanzania in 2005. The studies focused on policy opportunities and challenges for drylands commodities in East Africa and were the basis of a regional policy workshop focusing on market access challenges and opportunities in the drylands of East Africa that was held in April 2006. The workshop outputs were also an important input in the preparation of the document.

We are indebted to the three national consultants who conducted the policy studies. They included Paul Gamba (Kenya), Yakobo Moyini (Uganda) and Dorothy Mwanyika (Tanzania). We also acknowledge the inputs of John Mbaria who reviewed the three studies and synthesized them into one document. This document also benefited from editorial and technical inputs from Sarah Anyoti and Albert Mwangi of the UNDP Drylands Development Centre. The writing and publication of the document was made possible through the financial support of the European Commission and UNDP.

## List of Acronyms

ACP	African Caribbean and Pacific Countries
AFC	Agricultural Finance Corporation
AGOA	African Growth and Opportunity Act
ASALs	Arid and Semi Arid Lands
ATIA	African Trade Insurance Agency
