UNDP is the leading United Nations organization fighting to end the injustice of poverty, inequality, and climate change. Working with our broad network of experts and partners in 170 countries, we help nations to build integrated, lasting solutions for people and planet. Learn more at undp.org or follow at @UNDP.

UNESCO – a global leader in education. Education is UNESCO's top priority because it is a basic human right and the foundation for peace and sustainable development. UNESCO is the United Nations' specialized agency for education, providing global and regional leadership to drive progress, strengthening the resilience and capacity of national systems to serve all learners and responding to contemporary global challenges through transformative learning, with special focus on gender equality and Africa across all actions.

This report is the result of a collaboration between UNESCO Bangkok, Asia and Pacific Regional Bureau for Education, UNDP Bangkok Regional Hub, and the University of Technology Sydney (UTS).

The study was commissioned by UNESCO in partnership with UNDP and financed with funds from the UNAIDS Budget, Results and Accountability Framework. The development of the report was managed by Jenelle Babb, Regional HIV and Health Education Advisor and team lead on Education for Health and Wellbeing (UNESCO Bangkok), Katri Kivioja, Policy Specialist (UNDP Bangkok Regional Hub) and Jawying Lyster, Programme Implementation and M&E Officer (UNDP Bangkok Regional Hub). The study was conducted by a research team from the University of Technology Sydney (UTS), Sydney, Australia, comprising Amelia Johns (UTS), Paul Byron (UTS), Niki Cheong (King's College London), Hendri Yulius Wijaya, and Numan Afifi. UTS carried out a desk review of self-directed, online digital citizenship resources (in English) and key reports, and a qualitative mapping exercise that engaged with young lesbian, gay, bisexual, transgender and intersex (LGBTI) persons and young key populations (YKP) leaders and stakeholders to discuss opportunities and gaps provided by existing resources to support the digital literacy, safety and participation of LGBTI young people and YKP in the Asia-Pacific region.

UNESCO, UNDP and the research team would like to express our thanks and appreciation to the 23 expert informants, invited from a diverse range of organizations, who provided context and understanding of the specific needs of LGBTI young people and YKP in relation to accessing online resources that support their digital citizenship. We also acknowledge the generous feedback on early drafts of the report by members of the Asia Pacific Inter-Agency Task Team on Young Key Populations (IATT on YKP): Vanessa Monley (Youth Lead), Edward Rudram (UNAIDS), Sangeet Kayastha (Y-Peer Asia-Pacific Center), Kathryn Johnson (UNDP), Justin Bionat (Youth Voices Count) and Maki Akiyama (UNFPA Asia-Pacific Regional Office).
