TABLE OF CONTENTS

List of Tables	Х		
List of Figures			
List of Acronyms and Abbreviations			
SECTION A: ODS AND ODS ALTERNATIVES SURVEY			
Summary of ODS and ODS Alternatives Survey	3		
 Introduction General Information Existing policy regulation frameworks and controls of ODS in Bangladesh Objectives of Survey Scope of Survey Scope of Survey Sector and sub-sector population Strategy for estimation of sample size of the population Geographical distribution of sample size in service workshops 	8 8 9 9 9 9 9 10		
 1.5 Methodology and Approach 1.5.1 Main activities undertaken 1.5.2 Methodology for questionnaire development 1.5.3 Special investigation 1.5.4 Facilitate the data sharing workshop with relevant stakeholders and implementation modalitie 	12 12 13 13 28 13		
 Data collection on the use of ODS and ODS alternatives Applications of ODS and ODS alternatives in different sectors and sub-sectors Production, Export and Import of ODS and ODS alternatives during 2014-2019 	14 14 14		
 Consumption of ODS and ODS alternatives in RAC sector Refrigeration assembling/manufacturing sector Consumption of ODS an ODS alternatives in air-conditioning assembling/ manufacturing 	16 16 19		
 Sector and Sub-sector wise ODS consumption during 2014-2019 Consumption of ODS alternatives in different sectors during 2014-2019 Consumption of ODS alternatives in Service sector Consumption of ODS and ODS alternatives in Foam sector Consumption of HFC in Aerosol sector Consumption of ODS alternatives in Solvent sector Consumption of ODS alternatives in Fire-fighting sector 	21 23 25 27 28 29 30		
 Estimation of HFC consumption in different sectors from 2014-2019 Substance wise growth patterns of HFCs consumption Review HFCs consumption trend and forecast HFCs consumption forecast up to 2040 Domestic RAC equipment safety and barriers for alternatives Institutional and regulatory framework Conclusions and Recommendations 	31 33 34 40 41 43 45		

SECTION B: EVALUATION OF DATA REPORTING SYSTEM

1. Introduction	49
2. The Importance of Data Reporting	50
3. The System of Data Reporting	51
4. Data Reporting Obligation to the Ozone Secretariat	52
5. Data Reporting Obligation to the Multilateral Fund Secretariat	54
6. Data Collection	56
7. Communicating the Data to the Ozone and Fund Secretariats	61
8. Checking Compliance	62
9. Conclusion and Recommendation	63
Annex B1 : Controlled Substances Under Kigali Amendment to the Montreal Protocol	64
Annex B2 : Data Forms for Reporting to the Ozone Secretariat	65
Annex B3 : Data Forms for Reporting to the Fund Secretariat	79
Annex B4 : ODP Values of the Most Common and Important Hcfcs	88
Annex B5 : Existing Licensing Instrument of Bangladesh to Import OD	89

SECTION C: NEEDS ASSESSMENT FOR REFRIGERATION AND AIR-CONDITIONING SERVICING SECTOR IN BANGLADESH

Summary Needs Assessment for Refrigeration and Air–conditioning Servicing Sector in Bangladesh				
1.	Bac	kground	95	
2.	Scoj 2.1 2.2 2.3 2.4	pe, Objectives, Methodology And Limitations Of The Study Scope: Objectives Methodology Limitations	97 97 97 97 97	
3.	Situ 3.1 3.2	ation Analysis Policy And Regulatory Framework Refrigeration And Air-Conditioning Market Analysis And Technology Trend 3.2.1 Domestic Refrigeration 3.2.2 Commercial refrigeration 3.2.3 Industrial refrigeration systems 3.2.4 Transport refrigeration 3.2.5 Unitary Air-conditioning (UAC) 3.2.6 Mobile Air Conditioning (MAC) 3.2.7 Chillers	98 98 100 100 100 101 101 101 102 102	
	3.3 3.4	 Training for Servicing Technicians TVET System: Professional Institutional Structure and Qualification Process 3.4.1 Plans and Policies 3.4.2 Structure of Technical and Vocational Education and Training 3.4.3 Organization and Management 	104 106 107 107 109	
	3.5	Low GWP Alternatives 3.5.1 Commercial Refrigeration: 3.5.2 Industrial refrigeration 3.5.3 Domestic Air-conditioning: 3.5.4 Commercial Air-conditioning: 3.5.5 Domestic refrigeration 3.5.6 Mobile air conditioning 3.5.7 Transport refrigeration	113 114 114 115 115 116 116 116	
	3.6	 Tools and Equipment 3.6.1 Spanners and Screwdrivers 3.6.2 Allen Keys, Wrenches and Pliers 3.6.3 Pliers and Spanners 3.6.4 Files and Cutters 3.6.5 Sealants and Sealing Valve 3.6.6 Multi-meter and Digital Thermometer 3.6.7 Charging Kit and Leak Detector 3.6.8 Tube Cutter 3.6.9 Pliers 3.6.10 Brazing Kit 3.6.11 Tongs and Fire Extinguisher 3.6.12 Pressure Gauges and Torque Wrenches 3.6.13 4-way Manifold 3.6.14 Refrigerant Hoses 3.6.15 Flaring and Swaging Tool 3.6.16 Soldering Iron (230 volt, 25 watt) 3.6.17 Measuring Tape, Spirit Level, Reamer and Torch 	117 117 117 118 118 118 119 119 120 120 120 120 120 121 121 121 121 122 122	

		3.6.18 Recovery Unit	123
		3.6.19 Nitrogen Cylinder and Regulator	123
		3.6.20 Brush, Oil Can and Allen Keys	124
		3.6.21 Fin Comb and Velocity Meter	124
		3.6.22 Light Weight Air Blower, Hand Drill Machine and Noise Tester	124
		3.6.23 Lokring	125
	3.7	RAC Standards	125
		3.7.1 Main technical standards relevant to the HCFC phase-out and low-GWP alternatives	127
		3.7.2 Safety	128
	3.8	Sector's Professional Institutional Structure (Rac Associations, Unions)	129
4.	Gap	s and Needs Assessment	130
	4.1	Policy and Regulatory Framework	130
	4.2	Challenges in Technology Trend	130
	4.3	Strength and Weakness for Training for Servicing Technicians	131
	4.4	Barriers for the Adoption of Low Gwp Alternatives	131
	4.5	Tools and Equipment	132
	4.6	Assessment of Safety Standards	132
	4.7	Utilization of Sector's Professional Institutional Structure	133
5.	Con	clusion and Recommendations	134

SECTION D: LEGISLATION AND POLICY FRAMEWORK FOR HFC MANAGEMENT

Introduction	137
Background	137
About the Montreal Protocol	138
Purpose of the Kigali Amendment	138
Features of the Kigali Amendment	138
Article 5 Parties: Group 1	139
Outline of the Assignment	139
Objective of the Assignment	139
Methodology	139
Measures taken	140
HFC Baseline	140
GWP Values	140
Legal Framework for Implementation of the Kigali Amendment Obligations	144
Monitoring and reporting	144
Import-export Licensing System	145
Exemptions	145
Labeling of HFC container	145
HPMP Stage II	145
Limitations and Challenges	146
Conclusion	146
Annex D 1 : Further Amendment of the Montreal Protocol	147
Annex D 2 : CIÄVCb	157
Annex D 3 : $evsj vt^{k} tMtRU$	181
Annex D4 ∶cwi‡ek, eb IR jevqycwieZBgš∦vjq-cÄvcb	184
